

**Behavioral Health Division Update
Behavioral Health Commission
November 28, 2018 Meeting**

ASSISTANT & DEPUTY DIRECTOR UPDATES

(Katy Eckert & Jamie Samboceti)

Drug Medi-Cal Organized Delivery System (DMC-ODS) update.

- The good news is that the State has completed negotiating the new standard terms and conditions with the feds, and have developed a contract with our neighboring County of Placer. The State will be posting the new terms on-line within the next couple of weeks, which will allow us to start our review process. EDC HHSA also had a teleconference with the state on 11/19/18 to discuss status and next steps. The key takeaways:
 - The County needs to complete the Readiness Review deliverables. These documents are in the process of being completed and sent in for approval from the State. Documents either approved or pending approval are: DMC-ODS Member Handbook, EDC SUD Practice Guidelines, Quality Management Work Plan, and DMC-ODS Provider Monitoring Policy and Procedures, and DMC-ODS Monitoring Tools. Readiness review documents still pending work to prepare for submission are DMC-ODS Compliance Program Policy, Procedures, and Training Plan for staff and providers on Compliance Program, Care Coordination Procedure and Training Plan for staff and providers, and Kaiser, Anthem Blue Cross and California Health and Wellness MOUs are still processing. This is the number one priority for the EDC SUDS team.
 - The State needs to determine how specifically to address the Provisional aspect of El Dorado County's applications, which is related to meeting network adequacy time and distance standards. At this point, El Dorado County is the only County that has opted into DMC-ODS under the Provisional status.
 - The County will continue efforts to secure DMC-ODS providers. The RFQ is being held open and currently there are two providers who are approved to enter into contract once the Board of Supervisors approves the DMC-ODS contract with the State. We are aware of one additional provider who is working to be eligible for approval to enter into contract. Another provider is not DMC Certified yet.
 - The State is starting to draft the contract for EDC. It is anticipated that drafts will be in review mid-December.
 - EDC and the State are establishing a schedule of calls to coordinate efforts.
 - Due to processing times at the State, the soonest EDC can go live with DMC-ODS programs is April 1, 2019. We are advocating to go live as soon as possible.

EL DORADO COUNTY BEHAVIORAL HEALTH FINANCIAL UPDATE

General Information:

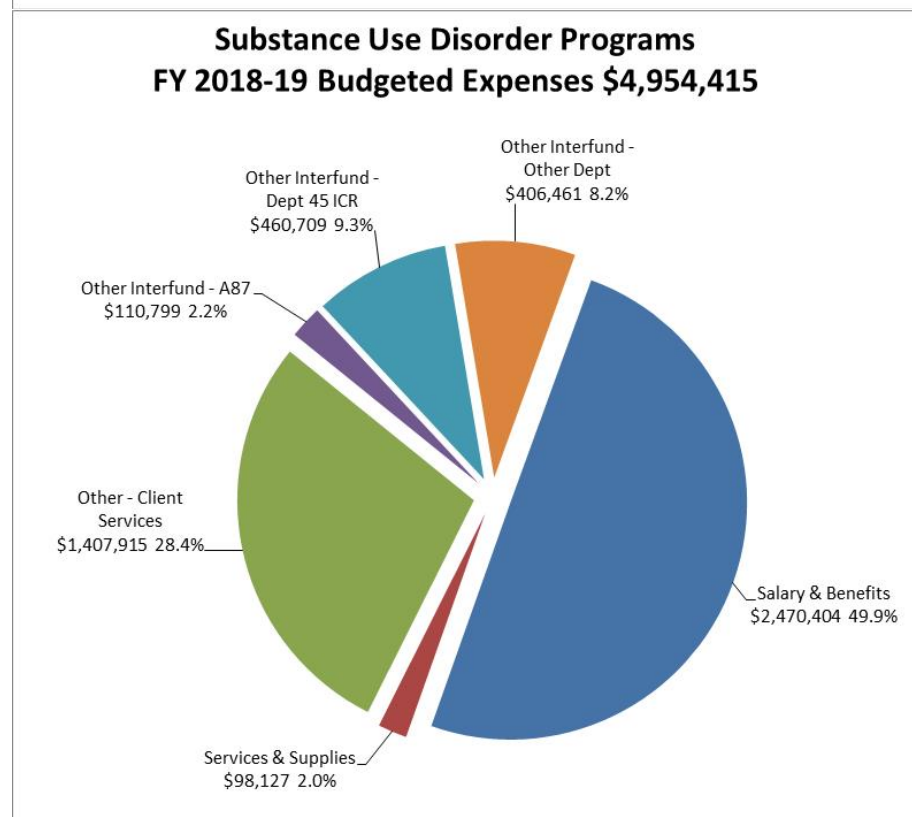

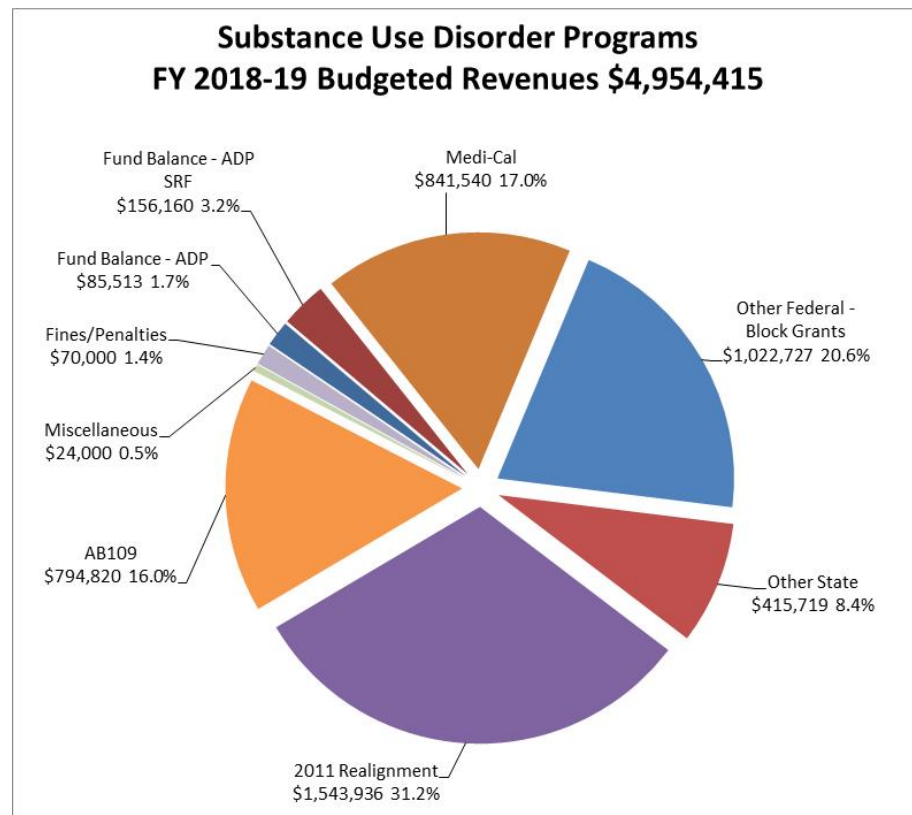

- Most funding coming into Behavioral Health is tied to delivery of services for specified programs.
- Base funding levels for individual counties are now set for 2011 Realignment.
- The County budgets full use of fund balance on the revenue side and an appropriation for contingencies on the expense side to allow flexibility throughout the year.
- When the economy slows down and sales tax receipts drop statewide, we will experience a reduction in 1991 & 2011 Realignment.

Specialty Mental Health Services

- MHSA Revenues are paid at an estimated rate throughout the year, and a true up occurs in the July/August timeframe. The true up can either greatly increase or decrease revenues received for the year.
- When the economy slows and California millionaires' income levels drop, MHSA revenues will likewise drop.
