

Government corruption is spinning out of control. When it comes right down to it, no matter how long a government shutdown lasts, it will remain business as usual in terms of the government's unceasing pursuit of greater powers and control. The propaganda mills posing as news sources are also largely to blame, and the Mtn. Democrat is no exception.

They are the backbone of an increasingly aggressive authoritarian government, formed by an unholy alliance between the mega-corporations and elected officials and bureaucrats with little concern for the Constitution who are incapable or unwilling to represent the best interests of their constituents. As you are aware, any act by any public official either supports and defends the Constitution, or opposes and violates it.

A prime example is Sheriff D'Agostini who was featured in the CSPOA "**Last Line of Defense**" video. Recently I received another email from Sheriff Richard Mack of the Constitutional Sheriff's and Peace Officers Association concerning Sheriff D'Agostini's fraud against EDC citizens: ***"I am in receipt of your correspondence referencing your complaint about your sheriff, John D'Agostini. He is no longer with the CSPOA and has not been for quite some time. My feeling is that he does not really care to be a member. Your servant, Richard Mack."***

If public opposition, outright challenges, and a government shutdown don't stop or even slow down the police state, then what are "we the people" to do?

First, pay attention to the political structure that is being created in the shadows, the economic system that is chaining taxpayers down with debt, and the fascist society borne out of the marriage of government and big business. Second, express your outrage, loudly and tirelessly, to the government's attack on our freedoms. Not only is it the right of every American to do so, it is our DUTY to expose government corruption and hold them accountable to their Oaths of Office. Third, courageously lead by example. Take issue with ANY and EVERY encroachment on your rights, no matter how minor because reclaiming our rights from the ground up, starting locally and trickling up, remains our only hope to make America great again.

Melody:

I am in receipt of your correspondence ref. your complaint about your sheriff, John D'Agostini. He is no longer with the CSPOA and has not been for quite some time. My feeling is that he does not really care to be a member.

Your servant,

Richard Mack
