I object to the County's proposed so called vegetation management plan. It is nothing but a huge government overreach in which neighbors, county code enforcement and government officials can selectively go after anyone in the county under a very subjective ordinance. There is no question that this ordinance will be used in an abusive manner.

These policies already reside in the California Code of Regulations Code, 14 C.C.R., Sections 1270.01-1276.03 for the State Responsibility Areas, which covers the majority of the County of El Dorado.

I would suggest you drop this mission to put the residents under the shadow of this overreaching policy and consider a more friendly form of assistance for the County's vegetation issues. The County has had access to grants and funds in order to assist the public in areas that need clean up. I would think this Board would be more interested in working with a carrot rather than a stick in moving forward.

Thank you for your consideration,

Sue Taylor
