Surveyor FY 2009-10 Budget Addenda

September 21, 2009

Policy Issue:

- How best to support the Land Management Information System/Geographical Information System (LMIS/GIS)?
 - Previous Model: Offset with intra-fund transfers to user departments
 - □ Another Model: Recognize LMIS/GIS as a countywide system therefore supported with a higher net county cost.

- Policy Decision:
- In the Addenda Intra-fund transfers to General Fund Departments have been deleted
 - □ Problem: Methodology to determine costs has not been agreed upon.
- Creates increased Net County Cost for Surveyor
 - Problem: Reduced revenue from General Fund Departments to support the cost of LMIS/GIS in the Surveyor's budget

- General Fund Departments that directly benefit from LMIS/GIS:
 - Development Services
 - ☐ Assessor
 - Sheriff
 - Environmental Management
 - □ Agriculture
- Non General Fund :
 - Department of Transportation

- Internal Clients
 - Note: Multi YearRequests
