Re: INRMP/IBC Stakeholder/Pawtac Committees

Members of the Board

I ask to be considered for appointment to the INRMP/IBC Stakeholder or Pawtac committee.

During the past two years I have spent way too much time analyzing and writing about the OWMP/TNRMP/IBC programs. It is important the INRMP/IBC project be implemented as directed by the General Plan and as interpreted by the Board of Supervisors. It is my belief the committees should include members that understand the process along with those that focus on the product.

Since graduation from UCD School of Law my work history includes time as an assistant city attorney for planning as well as involvement in virtually all aspects of real estate and land use law, including teaching real estate law at the college level. My litigation experience has included map act, CEQA actions, environmental cleanups, easements and a myriad of real estate related matters both in state and federal courts. Prior employment included analyst work with the Sacramento County Department of Public Works and Office of the County Executive.

Respectfully submitted,

Jim Brunello
