To the Board of Board of Supervisors and my fellow El Dorado Community citizens:

I respectfully disagree with the funding of the Diamond Parkway and ask that it be discontinued. Furthermore, I want those funds to be used for clearance of the roads we all need to travel to evacuate in the inevitable event of a fire or any other emergency. It does not take any intelligence to discern that all roads need wider clearance on both sides in order for evacuation and emergency personnel to travel there as well as ditching, brushing, and trimming for fire safety in the eventual event such as the Paradise Fire. There is not even enough space on the side of the road to pull over in case of car trouble without causing a hazard to others.

It is my opinion as an informed citizen that the lives of this county and its visitors, on which it relies heavily for income, are of far greater value than getting home sooner via a ridiculous Parkway which can be replaced by a simpler and less expensive solution.

Does it require a fire the magnitude of the Paradise Fire to prove this point?

Please demonstrate that you value the lives of us, the people who pay your salaries and do the right thing before it is too late. Our lives depend upon it.

Respectfully submitted,  
Terry R Flattley, MA
