Dear Sirs,

We own our home and our fence backs up against exactly where Oakmont Senior Living plans on building a 3 story apartment building. When we bought in 2006 we were told the land would be used for "lite industrial" and ONE story. NEVER did we imagine we would have a 3 story apartment building looking into our backyard. We are absolutely opposed to planning division re zoning the land behind our home. Can this department, for once, listen to the people of El Dorado Hills, and STOP building more residential units? Clearly you are aware of the difficult traffic situation we are in and yet it is ignored over and over again. You will not find one family in Stonebriar that is FOR Oakmont building a huge apartment building behind our homes. We do not want it re-zoned and we do not want a 3 story building looking into our backyards.

Eddie and Tonita Otero
