ARTICLE IV

Taxes: Contractor certifies that as of today's date, it is not in default on any unsecured property taxes or other taxes or fees owed by Contractor to County. Contractor agrees that it shall not default on any obligations to County during the term of this Agreement.

ARTICLE V

Confidentiality: The Contractor shall protect from unauthorized disclosure names and other identifying information concerning persons receiving services pursuant to this Agreement, except for statistical information not identifying any client. The Contractor shall not use such information for any other purpose other than carrying out the Contractor's obligations under this Agreement. The Contractor shall promptly transmit to the County all requests for disclosure of such information not emanating from the client. The Contractor shall not disclose, except as otherwise specifically permitted by this Agreement or authorized by the client, any such information to anyone other than the County, except when subpoenaed by a court. For purposes of this paragraph, identity shall include, but not be limited to, name, identifying number, symbol, or other identifying particular assigned to the individual, such as finder or voice print or a photograph. If the Contractor receives any individually identifiable health information ("Protected Health Information" or "PHI") from County or creates or receives any PHI on behalf of County, the Contractor shall maintain the security and confidentiality of such PHI as required of County by applicable laws and regulations, including the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and the regulations promulgated thereunder.

ARTICLE VI

Changes to Agreement: This Agreement may be amended by mutual consent of the parties hereto. Said amendments shall become effective only when in writing and fully executed by duly authorized officers of the parties hereto.

ARTICLE VII

Contractor to County: It is understood that the services provided under this Agreement shall be prepared in and with cooperation from County and its staff. It is further agreed that in all matters pertaining to this Agreement, Contractor shall act as Contractor only to County and shall not act as Contractor to any other individual or entity affected by this Agreement nor provide information in any manner to any party outside of this Agreement that would conflict with Contractor's responsibilities to County during term hereof.

ARTICLE VIII

Assignment and Delegation: Contractor is engaged by County for its unique qualifications and skills as well as those of its personnel. Contractor shall not subcontract, delegate or assign services to be provided, in whole or in part, to any other person or entity without prior written consent of County.

ARTICLE XI

Independent Contractor/Liability: Contractor is, and shall be at all times, deemed independent and shall be wholly responsible for the manner in which it performs services required by terms of this Agreement. Contractor exclusively assumes responsibility for acts of its employees, associates, and subContractors, if any are authorized herein, as they relate to services to be provided under this Agreement during the course and scope of their employment.

Contractor shall be responsible for performing the work under this Agreement in a safe, professional, skillful and workmanlike manner and shall be liable for its own negligence and negligent acts of its employees. County shall have no right of control over the manner in which work is to be done and shall, therefore, not be charged with responsibility of preventing risk to Contractor or its employees.

ARTICLE X

Fiscal Considerations: The parties to this Agreement recognize and acknowledge that County is a political subdivision of the State of California. As such, El Dorado County is subject to the provisions of Article XVI, Section 18 of the California Constitution and other similar fiscal and procurement laws and regulations and may not expend funds for products, equipment or services not budgeted in a given fiscal year. It is further understood that in the normal course of County business, County will adopt a proposed budget prior to a given fiscal year, but that the final adoption of a budget does not occur until after the beginning of the fiscal year.

Notwithstanding any other provision of this Agreement to the contrary, County shall give notice of cancellation of this Agreement in the event of adoption of a proposed budget that does not provide for funds for the services, products or equipment subject herein. Such notice shall become effective upon the adoption of a final budget which does not provide funding for this Agreement. Upon the effective date of such notice, this Agreement shall be automatically terminated and County released from any further liability hereunder.

In addition to the above, should the Board of Supervisors during the course of a given year for financial reasons reduce, or order a reduction, in the budget for any County department for which services were contracted to be performed, pursuant to this paragraph in the sole discretion of the County, this Agreement may be deemed to be canceled in its entirety subject to payment for services performed prior to cancellation.

ARTICLE XI

Audit by California State Auditor: Contractor acknowledges that if total compensation under this agreement is greater than \$10,000.00, this Agreement is subject to examination and audit by the California State Auditor for a period of three (3) years, or for any longer period required by law, after final payment under this Agreement, pursuant to California Government Code §8546.7. In order to facilitate these potential examinations and audits, Contractor shall maintain, for a period of at least three (3) years, or for any longer period required by law, after final payment under the contract, all books, records and documentation necessary to demonstrate performance under the Agreement.

ARTICLE XII

Default, Termination, and Cancellation:

- A. **Default:** Upon the occurrence of any default of the provisions of this Agreement, a party shall give written notice of said default to the party in default (notice). If the party in default does not cure the default within ten (10) days of the date of notice (time to cure), then such party shall be in default. The time to cure may be extended at the discretion of the party giving notice. Any extension of time to cure must be in writing, prepared by the party in default for signature by the party giving notice and must specify the reason(s) for the extension and the date on which the extension of time to cure expires.

Notice given under this section shall specify the alleged default and the applicable Agreement provision and shall demand that the party in default perform the provisions of this Agreement within the applicable period of time. No such notice shall be deemed a termination of this Agreement unless the party giving notice so elects in this notice, or the party giving notice so elects in a subsequent written notice after the time to cure has expired. In the event of termination for default, County reserves the right to take over and complete the work by contract or by any other means.

- B. **Bankruptcy:** This Agreement, at the option of the County, shall be terminable in the case of bankruptcy, voluntary or involuntary, or insolvency of Contractor.
- C. **Ceasing Performance:** County may terminate this Agreement in the event Contractor ceases to operate as a business, or otherwise becomes unable to substantially perform any term or condition of this Agreement.
- D. **Termination or Cancellation without Cause:** County may terminate this Agreement in whole or in part upon seven (7) calendar days written notice by County without cause. If such prior termination is effected, County will pay for satisfactory services rendered prior to the effective dates as set forth in the Notice of Termination provided to Contractor, and for such other services, which County may agree to in writing as necessary for contract resolution. In no event, however, shall County be obligated to pay more than the total amount of the contract. Upon receipt of a Notice of Termination, Contractor shall promptly discontinue all services affected, as of the effective date of termination set forth in such Notice of Termination, unless the notice directs otherwise.

This

duty of Contractor to indemnify and save County harmless includes the duties to defend set forth in California Civil Code Section 2778.

ARTICLE XVI

- F. The insurance will be issued by an insurance company acceptable to Risk Management, or be provided through partial or total self-insurance likewise acceptable to Risk Management.
- G. Contractor agrees that the insurance required above shall be in effect at all times during the term of this Agreement. In the event said insurance coverage expires at any time or times during the term of this Agreement, Contractor agrees to provide at least thirty (30) days prior to said expiration date, a new certificate of insurance evidencing insurance coverage as provided for herein for not less than the remainder of term of the Agreement, or for a period of not less than one (1) year. New certificates of insurance are subject to the approval of Risk Management and Contractor agrees that no work or services shall be performed prior to the giving of such approval. In the event the Contractor fails to keep in effect at all times insurance coverage as herein provided, County may, in addition to any other remedies it may have, terminate this Agreement upon the occurrence of such event.
- H. The certificate of insurance must include the following provisions stating that:
 - 1. The insurer will not cancel the insured's coverage without prior written notice to County, and;

2. The County of El Dorado, its officers, officials, employees and volunteers are included as additional insured on an additional insured endorsement, but only insofar as the operations under this Agreement are concerned. This provision shall apply to the general liability policy.
- I. The Contractor's insurance coverage shall be primary insurance as respects the County, its officers, officials, employees and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees or volunteers shall be in excess of the Contractor's insurance and shall not contribute with it.
- J. Any deductibles or self-insured retentions must be declared to and approved by the County, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the County, its officers, officials, employees and volunteers; or the Contractor shall procure a bond guaranteeing payment of losses and related investigations, claim administration and defense expenses.
- K. Any failure to comply with the reporting provisions of the policies shall not affect coverage provided to the County, its officers, officials, employees or volunteers.
- L. The insurance companies shall have no recourse against the County of El Dorado, its officers and employees or any of them for payment of any premiums or assessments under any policy issued by any insurance company.
- M. Contractor's obligations shall not be limited by the foregoing insurance requirements and shall survive expiration of this Agreement.
- N. In the event Contractor cannot provide an occurrence policy, Contractor shall provide insurance covering claims made as a result of performance of this Agreement for not less than three (3) years following completion of performance of this Agreement.
- O. Certificate of insurance shall meet such additional standards as may be determined by the contracting County Department either independently or in consultation with Risk Management, as essential for protection of the County.

ARTICLE XVII

Interest of Public Official: No official or employee of County who exercises any functions or responsibilities in review or approval of services to be provided by Contractor under this Agreement shall participate in or attempt to influence any decision relating to this Agreement which affects personal interest or interest of any corporation, partnership, or association in which he/she is directly or indirectly interested; nor shall any such official or employee of County have any interest, direct or indirect, in this Agreement or the proceeds thereof.

Contractor attests that it has no current business or financial relationship with any County employee(s) that would constitute a conflict of interest with provision of services under this contract and will not enter into any such business or financial relationship with any such employee(s) during the term of this Agreement. County represents that it is unaware of any financial or economic interest of any public officer or employee of Contractor relating to this Agreement. It is further understood and agreed that if such a financial interest does exist at the inception of this Agreement either party may immediately terminate this Agreement by giving written notice as detailed in the Article in the Agreement titled, "Default, Termination and Cancellation".

ARTICLE XX

Nondiscrimination:

- A. County may require Contractor's services on projects involving funding from various state and/or federal agencies, and as a consequence, Contractor shall comply with all applicable nondiscrimination statutes and regulations during the performance of this Agreement including but not limited to the following: Contractor and its employees and representatives shall not unlawfully discriminate against any employee or applicant for employment because of race, religion, color, national origin, ancestry, physical handicap, medical condition, marital status, age, or sex; Contractor shall, unless exempt, comply with the applicable provisions of the Fair Employment and Housing Act (Government Code, Sections 12900 et seq.) and applicable regulations promulgated thereunder (California Code of Regulations, Title 2, Sections 7285.0 et seq.); the applicable regulations of the Fair Employment and Housing Commission implementing Government Code, Section 12990, set forth in Chapter 5 of Division 4 of Title 2 of the California Code of Regulations incorporated into this Agreement by reference and made a part hereof as if set forth in full; and Title VI of the Civil Rights Act of 1964, as amended. Refer to WAC 458-20-193, and call the Department of Revenue at 800-647-7706 for additional information. When out-of-state Contractors are not required to collect and remit "use tax," Purchasers located in the State of Washington are responsible for paying this tax, if applicable, directly to the Department of Revenue.

Fees/Licenses:

After award of Contract, and prior to commencing performance under the Contract, the Contractor shall pay for and maintain in a current status any licenses, fees, assessments, permit charges, etc., which are necessary for Contract performance. It is the Contractor's sole responsibility to maintain licenses and to monitor and determine any changes or the enactment of any subsequent regulations for said fees, assessments, or charges and to immediately comply with said changes or regulations during the entire term of this Contract.

Customs/Brokerage Fees:

Contractor shall take all necessary actions, including, but not limited to, paying all customs, duties, brokerage, and/or import fees, to ensure that materials, supplies, and/or equipment purchased under the Contract are expedited through customs. Failure to do so may subject Contractor to liquidated damages as identified herein and/or to other remedies available by law or Contract. Neither the MCC nor the Purchaser will incur additional costs related to Contractor's payment of such fees.

Taxes on Invoice:

Contractor shall calculate and enter the appropriate Washington State and local sales tax on all invoices. Tax is to be computed on new items after deduction of any trade-in in accordance with WAC 458-20-247.

6.5 OVERPAYMENTS TO CONTRACTOR

Contractor shall refund to Purchaser/Participating Entity the full amount of any erroneous payment or overpayment under this Contract within thirty (30) days' written notice. If Contractor fails to make timely refund, Purchaser may charge Contractor one percent (1%) per month on the amount due, until paid in full.

6.6 AUDITS

The MCC Contract Administrator and/or the Purchaser/Participating Entity reserves the right to audit, or have a designated third party audit, applicable records to ensure that the Purchaser/Participating Entity has been properly invoiced. Any remedies and penalties allowed by law to recover monies determined owed will be enforced. Repetitive instances of incorrect invoicing may be considered complete cause for contract termination.

7.0 QUALITY ASSURANCE

7.1 RIGHT OF INSPECTION

Contractor shall provide right of access to its facilities to MCC, or any of MCC's officers, or to any other authorized agent or official of the state of Washington or other Participating Entity, or the federal government, at all reasonable times, in order to monitor and evaluate performance, compliance, and/or quality assurance under this Contract.

7.2 CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

Any written commitment by Contractor within the scope of this Contract shall be binding upon Contractor. Failure of Contractor to fulfill such a commitment may constitute breach and shall render Contractor liable for damages under the terms of this Contract. For purposes of this section, a commitment by Contractor includes: (i) Prices, discounts, and options committed to remain in force over a specified period of time; and (ii) any warranty or representation made by Contractor in its Response or contained in any Contractor or manufacturer publications, written materials, schedules, charts, diagrams, tables, descriptions, other written representations, and any other communication medium accompanying or referred to in its Response or used to effect the sale to Purchaser.

All materials or equipment provided shall be new and unused (or like new with no blemishes or defects), of the latest model or design and of recent manufacture.

In the event of conflict between Contract terms and conditions and Contractor's submitted warranty, the Contract terms and conditions shall prevail; except, to afford the Purchaser/Participating Entity maximum benefits, the MCC may avail itself of the Contractor's warranty if deemed more beneficial to the Purchaser/Participating Entity.

7.4 WARRANTIES

Contractor warrants that all materials, supplies, services and/or equipment provided under this Contract shall be fit for the purpose(s) for which intended, for merchantability, and shall conform to the requirements and specifications herein. Acceptance of any materials, supplies, service and/or equipment, and inspection incidental thereto, by the Purchaser shall not alter or affect the obligations of the Contractor or the rights of the Purchaser.

The Contractor warrants for a period of one year(s) from the date of Acceptance that: (a) the Product performs according to all specific claims that the Contractor made in its response to the solicitation, (b) the Product is suitable for the ordinary purposes for which such Product is used, (c) the Product is suitable for any special purposes identified in the solicitation or for which the Participating Entity has relied on the Contractor's skill or judgment, (d) the Product is designed and manufactured in a commercially reasonable manner, and (e) the Product is free of defects. Upon breach of the warranty, the Contractor will repair or replace (at no charge to the Participating Entity) the Product whose nonconformance is discovered and made known to the Contractor. If the repaired and/or replaced Product proves to be inadequate, or fails of its essential purpose, the Contractor will refund the full amount of any payments that have been made. The rights and remedies of the parties under this warranty are in addition to any other rights and remedies of the parties provided by law or equity, including, without limitation, actual damages, and, as applicable and awarded under the law, to a prevailing party, reasonable attorneys' fees and costs.

In the event a Date Warranty problem is reported to Contractor by Purchaser and such problem remains unresolved after three (3) calendar days, at Purchaser's discretion, Contractor shall send, at Contractor's sole

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

expense, at least one (1) qualified and knowledgeable representative to Purchaser's premises. This representative will continue to address and work to remedy the failure, malfunction, defect, or nonconformity on Purchaser's premises. This Date Warranty shall last perpetually. In the event of a breach of any of these representations and warranties, Contractor shall indemnify and hold harmless Purchaser from and against any and all harm, injury, damages, costs, and expenses incurred by Purchaser arising out of said breach.

8.2 RETENTION OF RECORDS

The Contractor shall maintain all books, records, documents, data and other evidence relating to this Contract and the provision of materials, supplies, services and/or equipment described herein, including, but not limited to, accounting procedures and practices which sufficiently and properly reflect all direct and indirect costs of any nature expended in the performance of this Contract. Contractor shall retain such records for a period of seven (7) years following the date of final payment or as otherwise specified in *Appendix D Specifications*. At no additional cost, these records, including materials generated under the Contract, shall be subject at all reasonable times to inspection, review, or audit by the MCC, personnel duly authorized by the MCC, personnel duly authorized by the Purchaser, the Washington State Auditor's Office, and federal and state officials so authorized by law, regulation or agreement.

If any litigation, claim or audit is started before the expiration of the seven (7) year period, the records shall be retained until final resolution of all litigation, claims, or audit findings involving the records.

8.3 PROPRIETARY OR CONFIDENTIAL INFORMATION

To the extent consistent with Chapter 42.56 RCW, the Public Disclosure Act, the MCC shall maintain the confidentiality of Contractor's information marked confidential or proprietary. If a request is made to view Contractor's proprietary information, the MCC will notify Contractor of the request and of the date that the records will be released to the requester unless Contractor obtains a court order enjoining that disclosure. If Contractor fails to obtain the court order enjoining disclosure, the MCC will release the requested information on the date specified.

The MCC's sole responsibility shall be limited to maintaining the above data in a secure area and to notify Contractor of any request(s) for disclosure for so long as the MCC retains Contractor's information in the MCC records. Failure to so label such materials or failure to timely respond after notice of request for public disclosure has been given shall be deemed a waiver by Contractor of any claim that such materials are exempt from disclosure.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

8.4 NON-ENDORSEMENT AND PUBLICITY

Neither the MCC nor the Purchasers/Participating Entities are endorsing the Contractor's Products or Services, nor suggesting that they are the best or only solution to their needs. Contractor agrees to make no reference to the state of Washington, MCC, Purchaser/Participating Entity in any literature, promotional material, brochures, sales presentation or the like, regardless of method of distribution, without the prior review and express written consent of the MCC and/or the impacted Participating Entity.

8.5 PROTECTION OF CONFIDENTIAL AND PERSONAL INFORMATION

Contractor acknowledges that some of the material and information that may come into its possession or knowledge in connection with this Contract or its performance may consist of information that is exempt from disclosure to the public or other unauthorized persons under either Chapter 42.17 RCW or other state or federal statutes ("Confidential Information"). Confidential Information includes, but is not limited to, names, addresses, Social Security numbers, e-mail addresses, telephone numbers, financial profiles, credit card information, driver's license numbers, medical data, law enforcement records, agency source code or object code, agency security data, or information identifiable to an individual that relates to any of these types of information. Contractor agrees to hold Confidential Information in strictest confidence and not to make use of Confidential Information for any purpose other than the performance of this Contract, to release it only to authorized employees or Subcontractors requiring such information for the purposes of carrying out this Contract, and not to release, divulge, publish, transfer, sell, disclose, or otherwise make the information known to any other party without Purchaser's express written consent or as provided by law. Contractor agrees to release such information or material only to employees or Subcontractors who have signed a nondisclosure agreement, the terms of which have been previously approved by Purchaser. Contractor agrees to implement physical, electronic, and managerial safeguards to prevent unauthorized access to Confidential Information.

"Personal information" including, but not limited to, "Protected Health Information" (PHI) under Health Insurance Portability And Accountability Act (HIPAA), individuals' names, addresses, phone numbers, birth dates, and social security numbers collected, used, or acquired in connection with this Contract shall be protected against unauthorized use, disclosure, modification or loss.

HIPAA establishes national minimum standards for the use and disclosure of certain health information. The Contractor must comply with all HIPAA requirements and rules when determined applicable by the Purchaser. If Purchaser determines that (1) Purchaser is a "covered entity" under HIPAA, and that (2) Contractor will perform "business associate" services and activities covered under HIPAA, then at Purchaser's request, Contractor agrees to execute Purchaser's business associate Contract in compliance with HIPAA.

Contractor shall ensure its directors, officers, employees, Subcontractors or agents use personal information solely for the purposes of accomplishing the services set forth herein. Contractor and its Subcontractors agree not to release, divulge, publish, transfer, sell or otherwise make known to unauthorized persons personal information without the express written consent of the Agency or as otherwise required by law.

Any breach of this provision may result in termination of the Contract and demand for return of all personal information. The Contractor agrees to indemnify and hold harmless the State of Washington and the Purchaser for any damages related to both: (1) the Contractor's unauthorized use of personal information and (2) the unauthorized use of personal information by unauthorized persons as a result of Contractor's failure to sufficiently protect against unauthorized use, disclosure, modification, or loss.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

Contractor shall maintain a log documenting the following: the Confidential Information received in the performance of this Contract; the purpose(s) for which the Confidential Information was received; who received, maintained and used the Confidential Information; and the final disposition of the Confidential Information. Contractor's records shall be subject to inspection, review or audit in accordance with Retention of Records.

Purchaser reserves the right to monitor, audit, or investigate the use of Confidential Information collected, used, or acquired by Contractor through this Contract. The monitoring, auditing, or investigating may include, but is not limited to, salting databases.

Violation of this section by Contractor or its Subcontractors may result in termination of this Contract and demand for return of all Confidential Information, monetary damages, or penalties.

Immediately upon expiration or termination of this Contract, Contractor shall, at Purchaser's option: (i) certify to Purchaser that Contractor has destroyed all Confidential Information; or (ii) return all Confidential Information to Purchaser; or (iii) take whatever other steps Purchaser requires of Contractor to protect Purchaser's Confidential Information.

9.1 GOVERNING LAW/VENUE

This Contract shall be construed and interpreted in accordance with the laws of the State of Washington, and the venue of any action brought hereunder shall be in the Superior Court for Thurston County.

9.2 SEVERABILITY

If any provision of this Contract or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Contract that can be given effect without the invalid provision, and to this end the provisions of this Contract are declared to be severable.

9.3 SURVIVORSHIP

All transactions executed for Products and Services provided pursuant to the authority of this Contract shall be bound by all of the terms, conditions, Prices and Price discounts set forth herein, notwithstanding the expiration of the initial term of this Contract or any extension thereof. Further, the terms, conditions and warranties contained in this Contract that by their sense and context are intended to survive the completion of the performance, cancellation or termination of this Contract shall so survive. In addition, the terms of the sections titled Overpayments to Contractor; Contractor's Commitments, Warranties and Representations; Protection of Confidential and Personal Information; Order of Precedence, Incorporated Documents, Conflict and Conformity; Non-Endorsement and Publicity; Retention of Records; Proprietary or Confidential Information; Disputes and Remedies; and Limitation of Liability shall survive the termination of this Contract.

9.4 INDEPENDENT STATUS OF CONTRACTOR

In the performance of this Contract, the parties will be acting in their individual, corporate or governmental capacities and not as agents, employees, partners, joint venturers, or associates of one another. The parties intend that an independent contractor relationship will be created by this Contract. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purpose whatsoever. Contractor shall not make any

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

claim of right, privilege or benefit which would accrue to an employee under Chapter 41.06 RCW, or Title 51 RCW.

9.5 GIFTS AND GRATUITIES

Contractor shall comply with all state laws regarding gifts and gratuities, including but not limited to: RCW 43.19.1937, RCW 43.19.1939, RCW 42.52.150, RCW 42.52.160, and RCW 42.52.170 under which it is unlawful for any person to directly or indirectly offer, give or accept gifts, gratuities, loans, trips, favors, special discounts, services, or anything of economic value in conjunction with state business or contract activities.

Under RCW 43.19.1937 and the Ethics in Public Service Law, Chapter 42.52 RCW state officers and employees are prohibited from receiving, accepting, taking or seeking gifts (except as permitted by RCW 42.52.150) if the officer or employee participates in contractual matters relating to the purchase of goods or services.

9.6 IMMUNITY AND HOLD HARMLESS

(The following section applies to State of Washington Agencies and Purchasing Cooperative Members only.)

To the fullest extent permitted by law, Contractor shall indemnify, defend and hold harmless State, agencies of State and all officials, agents and employees of State, from and against all claims for injuries, death or damage to property arising out of or resulting from the performance of the contract. Contractor's obligation to indemnify, defend, and hold harmless includes any claim by Contractors' agents, employees, representatives, or any subcontractor or its employees.

Contractor expressly agrees to indemnify, defend, and hold harmless the State for any claim arising out of or incident to Contractor's or any subcontractor's performance or failure to perform the contract. Contractor shall be required to indemnify, defend, and hold harmless the State only to the extent claim is caused in whole or in part by negligent acts or omissions of Contractor.

Contractor waives its immunity under Title 51 to the extent it is required to indemnify, defend and hold harmless State and its agencies, officials, agents or employees.

9.8 NO WAIVER OF SOVEREIGN IMMUNITY

In no event shall this Master Agreement, any Participating Addendum or any contract or any purchase order issued thereunder, or any act of a Lead State or a Participating Entity, be a waiver by the Participating Entity of any form of defense or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court.

If a claim must be brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for the Participating State. This section applies to a claim brought against the Participating State only to the extent Congress has appropriately abrogated the Participating State's sovereign immunity and is not consent by the Participating State to be sued in federal court. This section is also not a waiver by the Participating State of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

9.9 PERSONAL LIABILITY

It is agreed by and between the parties hereto that in no event shall any official, officer, employee or agent of the State of Washington when executing their official duties in good faith, be in any way

Contractor shall include all Subcontractors as insureds under all required insurance policies, or shall furnish separate Certificates of Insurance and endorsements for each Subcontractor.

Subcontractor(s) must comply fully with all insurance requirements stated herein. Failure of Subcontractor(s) to comply with insurance requirements does not limit Contractor’s liability or responsibility.

If an insurer is not admitted, all insurance policies and procedures for issuing the insurance policies must comply with Chapter 48.15 RCW and Chapter 284-15 WAC.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

Excess Coverage:

The limits of all insurance required to be provided by the Contractor shall be no less than the minimum amounts specified. However, coverage in the amounts of these minimum limits shall not be construed to relieve the Contractor from liability in excess of such limits.

Limit Adjustments:

The state reserves the right to increase or decrease limits as appropriate.

9.11 INDUSTRIAL INSURANCE COVERAGE

The Contractor shall comply with the provisions of Title 51 RCW Industrial Insurance. If the Contractor fails to provide industrial insurance coverage or fails to pay premiums or penalties on behalf of its employees as may be required by law, the MCC may terminate this Contract. This provision does not waive any of the Washington State Department of Labor and Industries (L&I) rights to collect from the Contractor.

9.12 NONDISCRIMINATION

During the performance of this Contract, the Contractor shall comply with all applicable federal and state nondiscrimination laws, regulations and policies, including, but not limited to, Title VII of the Civil Rights Act, 42 U.S.C. section 12101 et. seq.; the Americans with Disabilities Act (ADA); and, Chapter 49.60 RCW, Discrimination – Human Rights Commission.

9.13 OSHA AND WISHA REQUIREMENTS

Contractor agrees to comply with conditions of the Federal Occupational Safety and Health Administration (OSHA) and, if manufactured or stored in the State of Washington, the Washington Industrial Safety and Health Act (WISHA) and the standards and regulations issued there under, and certifies that all items furnished and purchased will conform to and comply with said laws, standards and regulations. Contractor further agrees to indemnify and hold harmless MCC and Purchaser from all damages assessed against Purchaser as a result of Contractor's failure to comply with those laws, standards and regulations, and for the failure of the items furnished under the Contract to so comply.

9.14 ANTITRUST

The state maintains that, in actual practice, overcharges resulting from antitrust violations are borne by the Purchaser. Therefore, the Contractor hereby assigns to the State of Washington any and all of the Contractor's claims for such price fixing or overcharges which arise under federal or state antitrust laws, relating to the materials, supplies, services and/or equipment purchased under this Contract.

9.15 WAIVER

Failure or delay of the MCC or Purchaser to insist upon the strict performance of any term or condition of the Contract or to exercise any right or remedy provided in the Contract or by law; or the MCC's or Purchaser's acceptance of or payment for materials, supplies, services and/or equipment, shall not release the Contractor from any responsibilities or obligations imposed by this Contract or by law, and shall not be deemed a waiver of any right of the MCC or Purchaser to insist upon the strict performance of the entire agreement by the Contractor. In the event of any claim for breach of Contract against the Contractor, no provision of this Contract shall be construed, expressly or by implication, as a waiver by the MCC or Purchaser of any existing or future right and/or remedy available by law.

9.16 APPLICABLE STANDARD TERMS AND CONDITIONS

Appendix B titled: *(WSCA-NASPO) Master Agreement Standard Terms and Conditions*, shall supplement the terms and conditions appearing elsewhere within this contract.

10.0 DISPUTES AND REMEDIES

10.1 PROBLEM RESOLUTION AND DISPUTES

Problems arising out of the performance of this Contract shall be resolved in a timely manner at the lowest possible level with authority to resolve such problem. If a problem persists and cannot be resolved, it may be escalated within each organization.

In the event a bona fide dispute concerning a question of fact arises between MCC or the Purchaser and Contractor and it cannot be resolved between the parties through the normal escalation processes, either party may initiate the dispute resolution procedure provided herein.

The initiating party shall reduce its description of the dispute to writing and deliver it to the responding party. The responding party shall respond in writing within three (3) Business Days. The initiating party shall have three (3) Business Days to review the response. If after this review a resolution cannot be reached, both parties shall have three (3) Business Days to negotiate in good faith to resolve the dispute.

If the dispute cannot be resolved after three (3) Business Days, a Dispute Resolution Panel may be requested in writing by either party who shall also identify the first panel member. Within three (3) Business Days of receipt of the request, the other party will designate a panel member. Those two panel members will appoint a third individual to the Dispute Resolution Panel within the next three (3) Business Days.

The Dispute Resolution Panel will review the written descriptions of the dispute, gather additional information as needed, and render a decision on the dispute in the shortest practical time.

Each party shall bear the cost for its panel member and share equally the cost of the third panel member.

Both parties agree to exercise good faith in dispute resolution and to settle disputes prior to using a Dispute Resolution Panel whenever possible.

Unless irreparable harm will result, neither party shall commence litigation against the other before the Dispute Resolution Panel has issued its decision on the matter in dispute.

MCC, the Purchaser and Contractor agree that, the existence of a dispute notwithstanding, they will continue without delay to carry out all their respective responsibilities under this Contract that are not affected by the dispute.

If the subject of the dispute is the amount due and payable by Purchaser for materials, supplies, services and/or equipment being provided by Contractor, Contractor shall continue providing materials, supplies, services and/or equipment pending resolution of the dispute provided Purchaser pays Contractor the amount Purchaser, in good faith, believes is due and payable, and places in escrow the difference between such amount and the amount Contractor, in good faith, believes is due and payable.

10.2 ADMINISTRATIVE SUSPENSION

When it is in the best interest of the state, the MCC may at any time, and without cause, suspend the Contract or any portion thereof for a period of not more than thirty (30) calendar days per event by written notice from the Contract Administrator to the Contractor's Representative. Contractor shall

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

resume performance on the next business day following the 30th day of suspension unless an earlier resumption date is specified in the notice of suspension. If no resumption date was specified in the notice of suspension, the Contractor can be demanded and required to resume performance within the 30 day suspension period by the Contract Administrator providing the Contractor's Representative with written notice of such demand.

10.3 FORCE MAJEURE

The term "force majeure" means an occurrence that causes a delay that is beyond the control of the party affected and could not have been avoided by exercising reasonable diligence. Force majeure shall include acts of God, war, riots, strikes, fire, floods, epidemics, or other similar occurrences.

Exceptions: Except for payment of sums due, neither party shall be liable to the other or deemed in breach under this Contract if, and to the extent that, such party's performance of this Contract is prevented by reason of force majeure.

Notification: If either party is delayed by force majeure, said party shall provide written notification within forty-eight (48) hours. The notification shall provide evidence of the force majeure to the satisfaction of the other party. Such delay shall cease as soon as practicable and written notification of same shall likewise be provided. So far as consistent with the Rights Reserved below, the time of completion shall be extended by Contract amendment for a period of time equal to the time that the results or effects of such delay prevented the delayed party from performing in accordance with this Contract.

Rights Reserved: The MCC reserves the right to authorize an amendment to this Contract, terminate the Contract, and/or purchase materials, supplies, equipment and/or services from the best available source during the time of force majeure, and Contractor shall have no recourse against the Purchaser or Participating Entity.

10.4 ALTERNATIVE DISPUTE RESOLUTION FEES AND COSTS

In the event that the parties engage in arbitration, mediation or any other alternative dispute resolution forum to resolve a dispute in lieu of litigation, both parties shall share equally in the cost of the alternative dispute resolution method, including cost of mediator or arbitrator. In addition, each party shall be responsible for its own attorneys' fees incurred as a result of the alternative dispute resolution method.

10.5 NON-EXCLUSIVE REMEDIES

The remedies provided for in this Contract shall not be exclusive but are in addition to all other remedies available under law.

10.6 LIMITATION OF LIABILITY

The parties agree that neither Contractor, MCC nor Purchaser shall be liable to each other, regardless of the form of action, for consequential, incidental, indirect, or special damages except a claim related to bodily injury or death, or a claim or demand based on patent, copyright, or other intellectual property right infringement, in which case liability shall be as set forth elsewhere in this Contract. This section does not modify any sections regarding liquidated damages or any other conditions as are elsewhere agreed to herein between the parties. The damages specified in the sections titled Termination for Default and Retention of Records are not consequential, incidental, indirect, or special damages as that term is used in this section.

Neither the Contractor, the MCC nor Purchaser shall be liable for damages arising from causes beyond the reasonable control and without the fault or negligence of the Contractor, the MCC or

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

Purchaser. Such causes may include, but are not restricted to, acts of God or of the public enemy, acts of a governmental body other than the MCC or the Purchaser acting in either its sovereign or contractual capacity, war, explosions, fires, floods, earthquakes, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; but in every case the delays must be beyond the reasonable control and without fault or negligence of the Contractor, the MCC or the Purchaser, or their respective Subcontractors.

If delays are caused by a Subcontractor without its fault or negligence, Contractor shall not be liable for damages for such delays, unless the Services to be performed were obtainable on comparable terms from other sources in sufficient time to permit Contractor to meet its required performance schedule.

Neither party shall be liable for personal injury to the other party or damage to the other party's property except personal injury or damage to property proximately caused by such party's respective fault or negligence.

10.7 FEDERAL FUNDING

In the event that a federally funded acquisition results from this procurement, the Contractor may be required to provide additional information (free of charge) at the request of the MCC or Purchaser. Further, the Contractor may be subject to those federal requirements specific to the commodity.

10.8 FEDERAL RESTRICTIONS ON LOBBYING

However, the Indemnified Party must consent in writing for any money damages or obligations for which it may be responsible. The Indemnified Party shall furnish, at the Contractor's reasonable request and expense, information and assistance necessary for such defense. 3.0.	SECTION C Data Center, Data Storage, and Data Access		
Item	Function	Description	Describe how Vendor meets or exceeds specifications
3.1	Data Center	The facility housing the Data Center(s) must have multiple physical security features. Describe the physical security features that protect the Data Center and agency data.	<p>AMS meets this specification. The monitoring facility is secured so that access is restricted to authorized individuals. Visitors must press a buzzer to contact the receptionist, who can see the individual on the door camera and the building camera before admitting the individual into the main lobby. Visitors must sign a log, and are then issued a visitor badge that must be displayed at all times. They must be escorted at all times while visiting the facility. All visitors must sign out and surrender their visitor's badge when they leave.</p> <p>Internal security is maintained through the use of electronic door controls, accessed through security proximity cards, which access schedules of when employees are allowed to be in the building. The building is under camera surveillance at all times.</p> <p>Outside lighting on the perimeter of the building illuminates both the building and the parking lots adjacent to the building. The parking lot perimeter is also monitored by a closed circuit infrared/low light TV system. Cameras are strategically placed in the lobbies and in the elevators, and all transmissions are both monitored and recorded twenty-four hours a day.</p>
3.2	Data Center	The Vendor's Data Centers should have ventilation and temperature control adequate to ensure proper functions of the Monitoring Center hardware.	AMS meets this specification. The data centers, which houses the central computer system, have both proper ventilation and temperature controls to ensure seamless functionality.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

3.3	Data Center	The Vendor's Data Centers must have back-up emergency power generators.	AMS meets this specification. If commercial AC power is lost, uninterruptible power supplies (UPS) instantly deliver backup power to all servers and buildings for up to 30 minutes. For the monitoring center areas, a diesel-powered generator comes online within six (6) seconds. The generator delivers power to the entire building for up to one (1) week, with N+1 generators and priority diesel fuel deliveries scheduled on a weekly basis.
3.4	Data Center	The Vendor must have redundant Data Centers located sufficiently distant from the primary center, such that it is unlikely to be adversely affected by a manmade or natural event or loss of electrical or communications services that would disable the primary Data Center.	AMS meets this specification. AMS has two separately managed, run, and serviced SAS 70 audited data centers in two locations in the Denver, CO metro area: ViaWest in Centennial and Qwest Cyber Center in Highlands Ranch. The two data centers are about 15 miles apart. These two data centers are based on different networks, power grids, central offices, and Service Providers. Each center has redundancy for all areas including cooling, electrical, power generation, and telecommunications.
3.5	Data Center	All back-up systems in the Data Centers must be tested regularly.	AMS meets this specification. Backups are tested every night by restoring the backup to a secondary database server, then running reports to ensure the backup is complete. The configuration of this secondary server is similar to AMS' production database nodes, hence this server can be pressed into service as a production replacement in the unlikely event of a catastrophic failure. The server ensures that data from the previous day's backup are restored and running as of 4:00 am each morning.
3.6	Data Center	The Vendor's system should provide for 100% redundancy to avoid unnecessarily excessive downtime due to hardware or software issues. In the event of data disruption, the secondary Data Center must be activated within 60 minutes of initial system failure.	<p>AMS exceeds this specification. To ensure availability of all data, AMS replicates all data daily to online storage arrays at three separate geographic locations. The database is tested daily to ensure system backup can be used on recovery of any system. In addition, AMS completes a data "snapshot" every four (4) hours to maintain backups. Transaction logs for all activity ensure that a data restore will be complete, and that each transaction is available.</p> <p>A full mirror of the database is maintained, which is approximately five seconds behind the production data base with full replication and data journaling in a near real time mode.</p> <p>Data Backups:</p> <ul style="list-style-type: none"> • Complete backups are performed every night. • Backups are copied to online SANs (Storage Array Networks) in two separate data centers.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

			<ul style="list-style-type: none"> • Backups are tested every night by restoring the backup to a secondary database server, then running reports to ensure the backup is complete. The configuration of this secondary server is similar to AMS' production database nodes, hence this server can be pressed into service as a production replacement in the unlikely event of a catastrophic failure. The server ensures that data from the previous day's backup are restored and running as of 4:00 am each morning. • Backups are kept online (not on tape) for faster restores and prompt availability. • Five years' worth of backups are stored online. • Multiple fiber rings terminate in each facility. <p>Hardware Redundancy:</p> <ul style="list-style-type: none"> • AMS' database service is a clustered group of nodes (on two servers, rather than a single server). • Any one of the nodes can handle the full workload of the database needs. • AMS also has a database test restore server that can be used as a production replacement in the event of a catastrophic failure. • AMS' web servers are a group of nodes (seven servers, rather than just a single server), which provide for load balancing. • AMS' communications servers are a group of nodes (ten servers, rather than just a single server), which provide for load balancing with multiple telecom carriers. <p>If a server in a work group (database, web, or communications) fails, AMS' current redundancy levels in the work groups ensure that our customers will not see or experience the failure.</p>
3.7	Data Storage	The Vendor must ensure that all records (automated or hard copy files) remain the property of the Agency and shall be returned within 30 days, in the event the contract is canceled or terminated.	AMS meets this specification. AMS can return information to the Agency. In all cases the information will remain confidential.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

3.8	Data Storage	The Vendor's system must ensure that all data be recorded with a historical transaction record and stored/archived for retrieval/backup in a database when requested by Agency personnel in accordance with the following:	<p>AMS meets this specification. All data is stored indefinitely, ensuring that all DOC data will be archived and available as needed.</p> <p>To ensure availability of all data, AMS replicates all data daily to online storage arrays at three separate geographic locations. The database is tested daily to ensure system backup can be used on recovery of any system. In addition, AMS completes a data "snapshot" every four (4) hours to maintain backups. Transaction logs for all activity ensure that a data restore will be complete, and that each transaction is available.</p>
3.9	Data Storage	a. All historical data must be centrally stored and accessible for reporting purposes;	AMS meets this specification. All data is stored in SCRAMNET and is available to agency personnel.
3.10	Data Storage	b. This information must be available for reporting in a standard transaction file format; and	AMS meets this specification. Transaction reports are always available in a standard file format.
3.11	Data Storage	c. All current and historical data files must be retained for a minimum period of seven (7) years and this information shall be available at no charge to the Agency.	AMS exceeds this specification. All data is archived indefinitely.
3.12	Data Storage	The Vendor's Data Centers must have duplicate computers with the ability to, at a minimum, permit restoration of data collection and user monitoring services within ten (10) minutes after computer failure. The Monitoring Center should have duplicate data storage devices with automated fail-over and automatic re-establishment of the duplicate databases upon replacement of the failed storage device.	<p>AMS meets this specification. AMS employs hardware redundancy to ensure uninterrupted monitoring:</p> <ul style="list-style-type: none"> • AMS' database service is a clustered group of nodes (on two servers, rather than a single server). • Any one of the nodes can handle the full workload of the database needs. • AMS also has a database test restore server that can be used as a production within 10 minutes replacement in the event of a catastrophic failure. • AMS' web servers are a group of nodes (seven servers, rather than just a single server), which provide for load balancing. • AMS' communications servers are a group of nodes (ten servers, rather than just a single server), which provide for load balancing with multiple telecom carriers. • If a server in a work group (database, web, or communications) fails, AMS' current redundancy levels in the work groups ensure that our customers will not see or experience the failure.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

3.13	Data Storage	Upon request from the Agency, the Vendor must provide the most up-to-date complete copy of the System database, including historical data, the data dictionary, file layouts, code tables, code values, data relationships, keys, and indices, etc., in a format to be determined by the Agency.	AMS will comply. AMS will work with the agency to provide any necessary database information in a manner that will not compromise overall confidentiality and system integrity.
3.14	Data Access	The Vendor shall not release or reveal any data, program information, operation protocols, implementation plans, training material, report(s), publication(s), updates, and/or statistical data related to the Program to any entity, to include non-Agency personnel, without prior written approval from the Agency Program Manager.	AMS will comply. All agency information will be kept confidential per agency procedures/specifications as allowed by law.
3.15	Data Access	The Vendor must maintain unaltered recorded data of offender violations, to be accessible in original form and substance for utilization as physical evidence for prosecution.	AMS exceeds this specification. All data is maintained in a manner that can be used as evidence in court. SCRAMx has an unrivaled record of court admissibility and peer-reviewed research when compared to any other CAM system on the market.
3.16	Security	The Vendor shall have documented policies and procedures for network security, application security, data transmission and data security, as well as Monitoring Center physical security.	AMS meets this specification. Alcohol Monitoring Systems, Inc. (AMS) has invested significantly in developing a formal Business Continuity Plan with the supporting infrastructure in the area of data backup and recovery, in order to prevent business interruptions and minimize the impact if an interruption does occur. The Datacenter physical security is monitored by SAVIS and ViaWest and controlled through multiple layers of controls. These are SSAE-16 secure sites.
3.17	Security	The system shall provide security features, which prevent unauthorized individuals from accessing any information held by the Vendor. Secure access to the system shall be maintained at all times.	<p>AMS meets this specification. The application is constructed in a manner so that no customer has access to any systems operations areas and is restricted to their portal view of the data. Only an AMS' systems are able to send data to the applications in which customers can only view, not update or change. All front end systems are monitored by firewalls and intrusion detection systems.</p> <p>All information is encrypted using password protection that meets National Institute of Standards (NIS) guideline. AMS web servers use SSL certificates to ensure that all session data is encrypted and all host communications information is confidential. AMS uses industry monitoring tools which monitor network, application, database, and systems 24x7 with alarms and alerting. Both internal and external hosted monitors ensure that an outage will immediately be recognized and alerted for a quick resolution.</p>

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

			The entire perimeter is protected and monitored by high availability firewalls and intrusion detection systems.
3.18	Security	The Vendor must maintain security policies and procedures for its network security, application security, data transmission security, data storage security, and physical security. While it is not necessary for the vendor to submit these documents with proposal, they must be provided to any requesting agency post award.	AMS will comply with this specification. Significant investment has been made in developing a formal Business Continuity Plan with the supporting infrastructure in the area of data back-up and recovery, in order to prevent business interruptions. AMS will provide any necessary information documenting these policies.
3.19	Security	The Vendor shall provide secure transmission and storage of data and must ensure that all data, data transmissions and data storage is kept confidential.	AMS meets this specification. Our centrally hosted and managed off-site data center provides sufficient resources to manage and maintain SCRAMNET's information and infrastructure. This necessary redundancy, used in conjunction with off-site vaulting services, ensures that customer data is well protected. SCRAMNET provides high quality, secure backups and operational efficiency. All data transmissions occur in our private data network or private telephony network.
3.20	Security	The Vendor's facility, equipment, data transmissions, and data storage shall be secure. The Vendor's facility shall be alerted and monitored by a local law enforcement Agency or security company. The alert line shall be a tamper-resistant dedicated circuit and shall not be exposed to any person or thing that could alter or damage the line. The Monitoring Center shall be equipped with automated fire detection and suppression equipment.	AMS meets this specification. Our data center facilities are managed by SAVIS (Century Link) and ViaWest which maintains SSAE-16 (formerly SAS 70 Level III) security with external alarming and monitoring from multiple remote facilities. These centers have multiple alert lines and redundant alert lines to ensure immediate alerting even if an inadvertent line cut should occur due to construction or work external to the building. These systems are tested and validated monthly. There are multiple communications entrances into the facility ensuring no failure can occur due to an accidental line cut. Automated fire detection and suppression equipment is standard throughout both facilities. The fire detection system monitors for excessive heat, ionization and smoke particulates both above and below the raised floors. All systems are tested at a minimum once per month with maintenance windows to ensure proper operation.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

3.21	Security	The Vendor shall maintain a written Disaster Recovery Plan to cover power failures, telephone system failures, local equipment failures, flood or fire at the Monitoring Center and Data Center continued continuity of operations.	AMS meets this specification. AMS has invested significantly in developing a formal Business Continuity Plan with the supporting infrastructure in the area of data back-up and recovery, in order to prevent business interruptions. This plan includes data protection, risk assessment information, infrastructure security, back-up and recovery processes, as well as performance monitoring practices. It ensures the protection of critical assets and customer data. Our data disaster plan is exercised daily for database restores and quarterly when we move our processing from one data center to the backup data center for verification of the recovery process.

4b.4	Equipment	The strap and circuitry shall enable the device to immediately notify the monitoring center of any tamper attempt or removal from the offenders' ankle.	<p>During the course of each day, SCRAMNET will notify the supervising authority of any alcohol readings, tamper alerts, or equipment malfunctions so they can respond quickly to problem offenders. The SCRAMx bracelet is equipped with industry-leading, anti-tamper technology that features five sensors to detect and report attempted tampers. These sensors determine whether the bracelet has been cut, removed, obstructed, or submerged. The bracelet's intelligent self-diagnostic capabilities constantly monitor and report its functionality. Any attempts to tamper with the bracelet or its functionality will be immediately detected by the SCRAMx system.</p>
4b.5	Equipment	The body-attached ankle bracelet unit must offer a rechargeable or field replaceable battery. If rechargeable, device shall function for approximately twenty-four (24) hours on a 2-hour charge. If replaceable batteries, describe the in-use live duration of your proposed battery and the basis for replacement of batteries and/or body-attached ankle bracelet unit including details of the number of small parts (screws, clips, rails, etc) that Officers must replace.	<p>AMS meets this specification. The SCRAMx bracelet uses a Lithium CR2, disposable battery. When monitoring for alcohol only, it has a minimum battery life of 90 days. When using CAM + RF, it has a minimum active battery life of sixty (60) when both days. It will post a low battery message seven (7) days prior to battery failure, allowing sufficient time for the battery to be replaced.</p> <p>The installation process can be completed in less than five (5) minutes. The SCRAMx bracelet is comprised of transmitter, battery, faceplate, and exhaust cap, strap, and two screws. Installation only requires one tool, a custom wrench, which is supplied by AMS. The strap is easily adjusted to fit the client's ankle. Then, the Direct Connect device is place over the bracelet to begin actively monitoring the client. In addition to training, a "quick sheet" installation guide is provided to walk agency personnel through the installation of the bracelet.</p>

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

4b.6	Equipment	Describe all maintenance and/or calibration intervals including steps involved and regularity they must be performed (Example: Replace water vessel inside body-attached ankle bracelet unit, once every 90 days.)	AMS performs all SCRAMx equipment maintenance, including recalibration, to ensure proper working order. The standard policy is to bring devices back once per year for recalibration. This is done by issuing a "Scheduled Maintenance" RMA at the time the device is due. There is not charge to the agency.
4b.7	Equipment	Deleted.	
4b.8	Equipment	The device must be shock resistant, water resistant, and must function under normal atmosphere and environmental conditions.	AMS meets this specification. The SCRAMx system is water and shock resistant, durable, and hypoallergenic. Additionally, the SCRAMx bracelet does not have any exposed water chambers or external features that could freeze in colder temperatures or stop functioning if it was subject to adverse wearing conditions.
4b.9	Equipment	The device shall be capable of sending a signal indicating a low battery condition prior to battery depletion.	AMS meets this specification. The SCRAMx bracelet will post a low battery message seven (7) days prior to battery failure, allowing sufficient time for the battery to be replaced.
4b.10	Equipment	All communications to and from the device shall be encrypted.	AMS meets this specification. All information is encrypted.
4b.11	Equipment	The device may be able to provide two-way communications with the participant as a means of rapid officer response to positive alcohol test results and the basis for Officer contact/intervention? If available, describe specifically how your device communicates and how it is tracked in your proposed system.	The SCRAMx system does not have this capability.
4b.12	Equipment	The device shall be able to detect and record an alert feature with immediate tamper notification including strap tampers, activation and deactivation tampers, and removal tamper notifications. Describe your specific method(s) of tamper detection (Examples: Temperature, Infra-red, etc.) and tamper evident capabilities.	AMS meets this specification. The SCRAMx bracelet is equipped with industry-leading, anti-tamper technology that features five sensors to detect and report attempted tampers. These sensors determine whether the bracelet has been cut off, slipped off, obstructed, or submerged. The bracelet's intelligent self-diagnostic capabilities constantly monitor and report its functionality. Any attempts to tamper with the bracelet or its functionality will be immediately detected by the SCRAMx system.
4b.13	Equipment	The device shall be able to detect and record an alert feature with immediate alert notification for a low battery.	AMS meets this specification. The SCRAMx bracelet will post a low battery message seven (7) days prior to battery failure, allowing sufficient time for the battery to be replaced.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

4b.14	Equipment	The device should incorporate non-volatile memory capable of storing at least 24 hours worth of events (with date and time of occurrence) at times when the cellular service or electrical power may become unavailable. In particular, non-volatile memory will retain unreported events and report them once power/cellular services have been restored, including date & time of occurrence.	AMS meets this specification. The SCRAMx bracelet will store up to a month's worth of court admissible alcohol data. These messages are stored in non-volatile memory and remain there even if the battery goes completely dead. This equates to about 48 tests per day, or 1440 tests per month. A fully charged SCRAMx bracelet battery will last 60 days. The SCRAMx Base Station will store events and alcohol data for approximately one month, or more in some cases. If using the backup battery, it will function for up to 48 hours with a fully charged battery. All messages are stored in its non-volatile memory so that the messages are never lost.
4b.15	Equipment	All straps utilized to attach equipment to an offender shall be designed so that if an offender cuts, severs or otherwise compromises the integrity of the strap an alert is generated.	AMS meets this specification. Part of the SCRAMx anti-tamper technology is to immediately detect and report any cut or removal of the strap.
4b.16	Equipment	Straps used to attach the equipment to an offender shall have exterior surfaces made of hypoallergenic materials, and shall be adjustable in length to fit all offenders All straps designed to attach equipment to an offender shall have the capability to be securely sized to an offender. If straps are pre-sized they should be immediately available in one-half inch increments or less.	AMS meets this specification. It is adjustable in 4 mm increments (about 1/6th of an inch) and is simply tightened or loosened to fit any leg.
4b.17	Equipment	System shall measure the ethanol concentration in a discrete sample of the ethanol vapor as insensitive perspiration or the unnoticed perspiration that occurs continuously and shall be obtained via body-attached device without the need for active participation by the participant. The device must be able to distinguish between environmental factors and actual consumption.	AMS meets this specification. SCRAMx tests for alcohol consumption through transdermal means, meaning that alcohol content is measured "through the skin." Because people excrete approximately one percent (1%) of the alcohol they drink through their sweat, if an individual has been drinking, then it will show up in the level of ethanol vapor present in this insensible perspiration. The SCRAMx device automatically collects transdermal samples of insensible perspiration from the air above the offender's skin and transmits this data to a central source for analysis – requiring no effort on the part of the offender or the supervising agency. All data received from the SCRAMx bracelet through SCRAMNET is subject to a rigorous data analysis and review process conducted by AMS' team of professionally-trained analysts. These analysts understand the nuances of real-world bracelet use, and can confirm or not confirm drinking episodes

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

			using court-proven criteria. Their review process identifies the presence of environmental alcohol and looks at key characteristics of the Transdermal Alcohol Concentration (TAC) curve– which is similar to a BAC (Blood Alcohol Content) to ensure that only true drinking episodes are confirmed (such as alcohol absorption and elimination rates).
4b.18	Equipment	The device shall provide for testing to be automatically conducted at fixed intervals that can be set by the Officer on a per participant basis based on the risk of the participant, as frequently as once every 30 minutes. Describe the number of settings, duration of each interval, the steps involved for an Officer to vary the testing intervals, including but not limited to the steps involved, any time delay or conditions for changes in testing interval to become effective, and whether or not there is a need for monitoring center involvement to vary testing intervals.	AMS meets this specification. The SCRAMx device takes an alcohol reading every 30 minutes, 24 hours a day. It is the only CAM device on the market that uses a controlled, quantifiable sampling method, drawing a measured sample every 30 minutes. This is the same proven sample delivery system used in evidential breath testing equipment used in law enforcement. While the testing frequency cannot be adjusted, it should be noted that there is currently not a transdermal continuous alcohol monitoring system on the market that incorporates adjustable testing settings.
4b.19	Equipment	The results of each test shall be reported to the monitoring center and notifiable to Officers. Describe if your device has a cellular reporting connection capable of immediate reporting or, if the test results must be stored in the body-attached ankle bracelet unit and capable of reporting only when the body-attached ankle bracelet returns in range of a second component attached to the participant’s home phone landline or cellular line. Describe the number of reporting settings, duration of each reporting interval, the steps involved for an Officer to vary the reporting interval, including but not limited to any time delay or conditions for changes in reporting interval to become effective, and whether or not there is a need for monitoring center involvement to vary the reporting interval.	AMS meets this specification. Once detected by SCRAMNET, all alcohol-related events are viewed and interpreted by a committee of AMS-certified analysts. This ensures that alert notifications are reliably confirmed as valid, so that no additional follow-up testing is needed to confirm drinking events. All confirmed alcohol violations are automatically date- and time-stamped, and typically sent to agency supervising authorities by 8:00 am the following day per agency procedures. A Daily Action Plan (DAP) typically delivered via email every day, shows which offenders had specific violations. AMS offers SCRAMx Wireless to monitor those offenders without access to a phone line. The wireless device simply plugs into an electrical outlet and downloads data daily at scheduled times; it is then uploaded directly to SCRAMNET. The SCRAMx bracelet unit is capable of reporting only when the bracelet is in range of a wireless SCRAMx base station. Otherwise, the test results are stored in the SCRAMx bracelet and uploaded into the base station once it is in range.

Contract 00212 with Alcohol Monitoring Systems for Electronic Monitoring of Offenders

			The SCRAMx system offers reporting settings of 1 to 6 communication times throughout the day. These client settings establish the times that the bracelet and base station will communicate with each other. Any alcohol events received by the base station are immediately uploaded to SCRAMNET. The settings can be adjusted by the officer through SCRAMNET.
5.0	SECTION E System Reports
