Notes:

(a) Estimates from County GIS data.

(b) Approximation based on American Community Survey Data for corresponding Census-Designated Places, with the exception of areas in Placerville Community Region outside of the City, which are approximated by Census Block Groups.

(c) Estimates from County GIS data.

(d) A jobs/employed residents ratio of 1.0 would indicate a localized balance between jobs and employed residents. Numbers above 1.0 indicate an excess of jobs and numbers below indicate a shortage of jobs.
