BOS 4-14-20, Item #17, File #20-0467

Dear Supervisors:

I ask that you allow the Economic Development Incentive Program to Sunset. As far as I am aware there are only 2 companies that the County approved to use this incentive and it appears that both have filed bankruptcy.

I really do not believe that the government should we investing county funds in picking winners and losers in the world of business. The government's role should be to legislate policy that is fair for all and not just a select few chosen by the government.

I think County staff has consumed too much of the County's resources on this program and has received nothing in return that gives benefit to existing residents and businesses. Also it appears that no one has been, or is being held responsible for the success or failure of this program.

The County needs to come back to looking inward on assisting existing businesses with policies that encourage the free market. Continuing to spend County resources to bring in outside businesses that compete with those that have not been given those same benefits, especially during this current pandemic, is not good County policy.

Thank you for your consideration,

Sue Taylor
