Re: PRISMHealth (formerly CSAC EIAHealth) Program – Billing and Eligibility Vendor

Dear Tameka:

This letter confirms that effective August 1, 2020, all coordination of eligibility and payments for the PRISMHealth program for the County of El Dorado should be submitted through Benefit Coordinators Corporation (BCC), who will then serve as the administrative intermediary between the County and the master Contract Holder PRISM. BCC is responsible for billing and eligibility functions for the PRISMHealth Program.

The County of El Dorado will pay implementation and coverage premiums to BCC. BCC will collect premium via consolidated billing and then forward payment as necessary to the appropriate carriers and vendors associated with the PRISMHealth Program. Administration for the PRISMHealth and Rx plans are included as part of the PRISMHealth Program. Eligibility adjustments reported to BCC after the date of the invoice will be reflected on the subsequent months invoice from BCC. This practice is part of the standard administrative process required of the PRISMHealth members.

Please let me know if you have any questions.

Sincerely,

Sidney DiDomenico  
Director of Employee Benefits  
PRISM
