To whom it may concern,

The impact of the proposed development sites would be negative for our county and community. I have counted 3 or 4 signs along EDH Blvd stating proposed developments.

Negative #1- Native Oak Tree woodlands. This habitat is unique and near endangerment. Our oak trees need to be protected and preserved. Allowing overdevelopment will overreach the ecological balance. We need native land preservation.

Negative #2- traffic. Adding residential or commercial development will increase cars on the road. The community has continually stood against the unsafe increase of traffic. Similar impacts were discussed when chickFila was proposed by Walgreens.

Negative #3- priorities of the county. Developing is a business. Salaries are made from developing land. The county needs to maintain a strong control of our land. Please don't be influenced only by people on the job... remember all of us who work elsewhere but live in the county. Hold onto historic zoning and also push to conserve the natural beauty of our land and keep what makes it a wonderful place to buy a home.

Please do not approve the developments along EDH Blvd! Protect the native oak trees and our peaceful community. Thank you!
