Hello,

I am writing about Parker Developments continued push to build on the old executive golf course. I am opposing any development in this area and would like to see it remain zoned as open space (OS).

I would like to see the project move from the planning commission meeting (June 11, 2020) to the board of supervisors for a vote this year. This meeting has already been postponed three times and should not be pushed into next year. Thanks for your consideration of my request.

Re: 19-1670 336 acres but especially off Gillette

Concerns about the re zone of Gillette in El Dorado Hill have driven me to write this important note.

Please accept my vote not to go through with this plan that would disrupt our lives for profit of a construction company that is after only money money money. Don't sell us out for that!

We are concerned not only about the build on with the asepsis hills for our health but the noise of traffic and smells of exhaust that will impede our lives. The water and road and school increases will impact our families here.

Don't become like the Bay Area where I just came from that forces families out and where cancer is rampant!

Consider the health of the established neighborhood that exists here already. We have a right to live free of health concerns.

Please vote no no no no no no.

Jeanette Anderson

Dear Commissioners,

As a tax-paying resident of El Dorado County, I'm concerned about the lack of progress on the county's discretionary review of the Central El Dorado Hills Specific Plan (CEDHSP).

The commission has not advanced this project following the latest public hearing on January 13, 2020. Since then, three continuances were requested and granted to the Applicant, Serrano Associates LLC, who is now requesting an indefinite forth continuance "for further analysis of potential impacts associated with Vehicle Mile Traveled (VMT)".

The sequence of these delays is troubling and appears to be based on the Applicant's goal of project approval rather than legitimate need.

This project has been pending for more than seven years. The residents deserve answers. I strongly urge the Planning Commission to avoid any further delays.

Sincerely,

Jim Schulz
