Why do you seek appointment? I wish to begin getting involved with the community in ways that can make an impact. I grew up in this county and wish to see its continued success for future generations. This county, like the broader state and country in general, is dire need of young leaders and community activists that go into public service with the sole goal of bettering the community; not with an agenda to better themselves personally. I believe I can be part of that younger generation that can take the reigns and follow the example of the success of the past while also being able to adapt to the problems of the future.			
Additional Information I was a Boy Scout for Troop 460 out of Pleasant Valley and grew up playing outdoors every day. I have experience leading projects, listening to counsel and advice from both my social superiors and those I am charged to lead. If given a chance on the board, I know I can learn quickly and become a valuable asset for the county.			
If known, indicate the member of the Board of Supervisors who will receive a copy of this application (no value entered)
