Please enter the entirety of this correspondence under 9/29/20 BOS Open Forum:

The Constitutional rights of Citizens supersede any EDC policies or procedures of the BOS. The Coloma Lotus Advisory Committee meeting being held October 1st at Earth Trek campground is a farce. The campground is owned by American River Conservancy President, Scott Vail. This serial meeting is taking place under the color of law without adherence to the Brown Act or any transparency, the same way RMAC has always operated.

It is significant that the CLNews, the Coloma-Lotus Fire Safe Council, RMAC and CLAC are run by members of the American River Conservancy. *These extreme liberals are NOT, and NEVER HAVE BEEN representative of the greater Coloma community*. It is a fact that Lori Parlin and Parks & Rec commissioner, Kris Payne, have participated in many of the serial RMAC meetings held at Camp Lotus and Coloma Grange Hall. CLAC is no different. Serial meetings are strictly prohibited by the Brown Act. Yet Lori Parlin has aligned herself and continues to empower and advocate on behalf of these liberal extremists.

This entire Board is aware that Howard Penn, Mike Bean, Donna McMaster, Harry Mercado, and several other members of the River Mafia Mob were investigated by law enforcement for their collusion in documented FRAUD and other CRIMES. For example, case files EG15-5698 and 5793 involve identity theft, hacking of my computer and Facebook accounts, trespassing, threats, libel, slander, cyber harassment, and pornography by American River Conservancy. Wade versus County of El Dorado County and American River Conservancy court file PC20120264 involves harassment and eminent domain. A small sample of the factual evidence is being entered into the public record, including correspondence from former Supervisor Jack Sweeney that supports all the aforementioned allegations.

Any act by any public official either supports and defends the Constitution, or opposes and violates it. Lori, you've made your liberal ideologies and lack of ethics very apparent. You are reminded that County Counsel and Brian Veerkamp are NOT your mouthpieces. Pursuant to Section 54954 of the Brown Act, you are required to respond publicly to constituent inquiries. Once again: WHO SPECIFICALLY IS RESPONSIBLE FOR AUTHORIZING THIS ILLEGITIMATE CLAC MEETING TO BE HELD OCTOBER 1ST AT A PRIVATE CAMPGROUND OWNED BY ARC PRESIDENT SCOTT VAIL?

Congratulations. For the record, you just publicly perjured your oaths of office again.

Subject: Please post to Item #30 of the 9/11 BOS Agenda

Please post the entirety of this correspondence, including photos and attachment, to Item #30 of the 9/11 BOS agenda.

Supervisors:

Please take into account that Roger Trout and Joe Harn were busily conferring with my neighbor, Alan Ehrgott, who was seated in the row directly in front of me during the 8/28 BOS meeting, Consent Item #31. That should raise a red flag to all citizens concerned about how EDC operates surreptitiously.

It is apparent to anyone who has a lick of common sense that American River Conservancy land acquisition deals are predetermined behind closed doors before the public ever has a chance to object to how they are funded and then turned over to BLM, CA State Parks or Fish & Wildlife. The government, working in conjunction with American River Conservancy, have proven time and again that they are incapable of being good neighbors. They are notorious for having created division and strife throughout EDC and surrounding counties via their highly unethical legal manipulations typically at taxpayers' expense.

Case in point is the attached letter submitted by Jack Sweeney to the BOS involving a suit filed by the Wades who live at Chili Bar on the S. Fork American River. Their suit against EDC & ARC was for public & private nuisance, trespass, intentional infliction of emotional distress, defamation, invasion of privacy, inverse condemnation, preliminary & permanent injunctions and slander of title. Their legal fees personally cost the Wades in excess of \$60,000 whereas the taxpayer-funded legal costs involving the County's counter-suit against the Wades remain undisclosed. The BOS needs to examine what are the real costs involved in dealing with American River Conservancy?

The 2007 acquisition of 249 acres bordering my property on Mt. Murphy doubled the size of the Marshall Gold Discovery Park. The below photos showing Alan Ehrgott and ARC member Dawn Bean trespassing on my private property during the wee hours speaks volumes about their nefarious intentions. It is significant that the CLNews and the Coloma-Lotus Fire Safe Council are run by members of the American River Conservancy.

Currently nearly 70% of EDC is government owned land, and the figures are rapidly rising. Cronan Ranch, Magnolia, Salmon Falls, Kanaka Valley, Wakamatsu Farm, and 10,000 acres of the headwaters of the American River are just a few other examples of EDC properties acquired by ARC and transferred to government agencies that are now exempt from paying property taxes. For that reason the 8/27/18 Taxpayers Association unanimously voted to write a letter to the BOS addressing the subject of ARC land acquisitions, hence Jack Sweeney sent an email to the BOS requesting Item #31 of the 8/28 BOS agenda be put on hold until such time as the BOS could scrutinize how ARC really operates.

Just because something may be legal, doesn't mean it is ethical. Before you place an item on Consent, examine the facts and mounting evidence against American River Conservancy methods of operation. Don't believe all their propaganda featured in the Mountain Democrat. You'll find ARC doesn't pass the smell test.

Board of Supervisors:

I am requesting that you not support any more of the shenanigans of the American River Conservancy (ARC)! Please, at least put item 31 on hold until you have a better understanding of how the ARC operates.

Look at the many properties they have caused to be removed from the property tax rolls of this county. Ask how much higher the price was when they resold them to the public agencies.

And ask who will be preparing the Fire Safe Plan under General Plan Public Health, Safety, and Noise Element; specifically Goal 6.2?

And ask who will process the General Plan Land use change and what the EIR for that will look like for Ag?

And, you may wish to ask the tough question: Will you be transferring title to a public agency? How much will you be paid for the transfer? Will you, therefor make a profit on the transfer? And lastly, ask for a copy of any and all transfer papers with regards to such a transfer.

31. 18-1197 Community Development Services, Planning and Building Department, recommending the Board approve the use of \$63,250 of Oak Woodland Conservation Funds to help acquire 1,018 acres of land for the protection and preservation of riparian and woodland habitat, that includes native fisheries and oak woodlands, and to provide for the potential future wildlife oriented public use opportunities on land fronting the Cosumnes River, to be owned and managed in the future by the California Department of Fish and Wildlife. Assessor's Parcel Numbers 091-030-12, 091-030-23, 091-030-28, 091-030-29, 091-030-30, 091-030-33, 091-030-40, 091-030-41, and 091-030-58 (El Dorado Ranch Phase 3) located in the southwest portion of the County approximately 6.5 miles south of El Dorado on the west side of Hwy 49 and approximately two miles north of the Cosumnes River. FUNDING: Funding will be from the Oak Woodland Conservation Fund.

Ah yes, as I write this memo I am reminded of the Serenity Prayer; this memo is probably not productive!

But thank you for your time in any case.

Jack Sweeney
