Hi,. My name is Pam, I live in Shingle Springs and we have lived in the county for over 20 years. While we realize that the COVID danger is real, especially for those at high risk. We also realize that sometimes the cure is worse than the problem.

We have seen our high school child's grades go from As and B's to C and D's. We're had to hire a tutor, he is spending way to much time on his screen and a lot of that is school stuff.

The schools need to open to full time in person ASAP or we will lose a full year of learning, socializing, and learning to become independent adults.

Our neighbors who haven't been so lucky to keep their jobs have been affected to such a degree that I cannot begin to explain it in this context. Just suffice to say their lives have been turned upside down.

Yes, we must deal with this situation but we must be SMART and WISE when making this monumental decisions that will affect our society for years to come.

Please support the Healthy Community Resolution.

Thanks for your time, Pam

Dear Supervisors,

As we learn today that EDC is moving back to the purple ties, want to lend my personal support for the resolution specified in Item 38, particularly resolved clauses 1 and 2 which address local control. The county is in the best position to address the difficult balance between supporting businesses and preventing COVID spread.

The Newsom administration to this point has given little if any regard to the needs of our small businesses, even as they acknowledge they do not contribute significantly to spread. If the state does not relent soon, we may not have many small businesses left by a Spring. It is time for the county to make clear that it does not agree with the state administration's attitude.

Thanks,

Andy Nevis
Shingle Springs
