I am a second homeowner in South Lake Tahoe. I stayed at my primary residence until you opened up the the Tahoe area. I am now at South Lake Tahoe. As you have no doubt heard the south shore is very crowded. If I understood correctly Gov. Newsom announced on Thursday that all businesses require masks to enter. Yet many stores and business's in Tahoe are not following this guideline. Safeway, hardware stores, picking up to go orders at restaurants.... no masks required to enter. Is the county health department and your department sending "strong" guidelines to the City Council (Tahoe) to get local companies to follow this mandate? They should all have a sign outside...No Entry without a MASK. What can be done to get them to follow the rules?

Good morning,

I am writing to express two concerns. Looking at the agenda for tomorrow's board meeting I see that the county is still using the exceptions to open meeting laws provided by Governor Newsom's executive orders of prior months.

First from my perspective reopening board meetings utilizing safe practices such as masking, social distancing, and limited seating is consistent with the reopenings of other activities in El Dorado County under more current executive orders.

Secondly the executive order that waives parts of our open meeting laws also requires the following (11, ii, condition): "... notice at least one publicly accessible location from which members of the public shall have the right to observe and offer public comment at the meeting."

I would request a response clarifying the county's understanding of my second concern (not everyone has access to technology) and hopefully letting me know when physical board meetings will become part of our safe reopening.

Thank you,  
Leo
