I would like to voice my concerns regarding the Gov Newsome threat to withhold money from any county who refuses to enforce his illegal and without the authority demands of the citizenry of California to comply with unfounded demands to wear masks in public.

I understand business owners can decide to allow non mask wearing public to do business in their business and also their right to enforce their policies regarding their property and business. If we do not agree with individual business owner policies we can decide for ourselves to support that choice or simply go elsewhere if we don't.

If you have not already heard from many of your constituents we citizens of El Dorado county appreciate the Sheriff's stance of not enforcing these demands. The Gov should be addressing the civil unrest occurring in our state and the increasing threats and disrespect for law enforcement and be very concerned over the increasing support from some of the states biggest business and monopolies who control the media, Google, Facebook Apple, Airtable funneling millions of dollars to the radical racist Black Lives Matter movement who I am of the opinion will become the new voice of the Democratic Party.

I would urge you to explore the option of filing a lawsuit against the gov. He can choose to not enforce our immigration laws and gives taxpayer money to those here illegally and threatens to punish counties for not complying with his demands, which are not laws and for which he has no authority to even suggest.

Please take a stand and pushback. Don't go the way of Democrat run cities, counties and states. Keep El Dorado County conservative which is fair for all legal citizens.

Thank you.
