BOS, I am in agreement of ending the public health emergency since there isn't an emergency. Our residents are well. You should only quarantine the sick not the well. Also, it would be a great service if you would separate asymptomatic not to be counted with people sick from Covid. It does a disservice to the public.

Thank you for your service

Dave and Jacquie Henifin

Board of Supervisors,

I'm writing this email to follow up on my previous emails as well as my comments during the recent BOS Meetings. I have been protesting Public Health in coordination with the Freedom Angels, see List of Demands attached. The first item on that list is seeking an end to the Public Health Emergency.

Per the last Covid update we are seeing a 99.7% survival rate among confirmed cases and our hospitals are not stressed. It seems to be your position that you do not want to end the Emergency in order to not put CARES dollars at risk. I find this position morally, ethically and possibly criminally wrong as it involves participating in a fraud and a hoax. It also does not show support for our businesses and schools being able to operate without restrictions, such as forced masks.

I have heard recent talk of the El Dorado Public Health office visiting schools such as Marble Valley and Churches to enforce restrictions and guidelines that resulted in some Halloween events being modified or cancelled. Also, see the attached fine imposed on El Dorado Cafe.

As a resident of El Dorado County and a mother, I am deeply concerned for the well being of our children and our community. Our kids are failing in school, they are depressed and many of them are seeing their dreams of a college education slip away. Our high schools are still not competing in sports as most of the country is able to. When our students are able to practice they are forced to wear masks during physically exerting activities. I believe this to be unhealthy but this is being forced on the students per the guidelines of Nancy Williams.

Our county needs your leadership to help ensure the survival of our business and our children having the ability to be free to thrive. What position does the Board of Supervisors take when it comes to protecting our businesses, places of worship and our children from the tyranny that is being committed by the Environmental Management Department and the Public Health Department?
