Please forward to all Board / Council members of your community if you would.

I fully support the use of CARES funds and other funds to pay fines imposed on local businesses that are following reasonable CV Guidelines - Our communities have so much more to gain by them staying open!

It is good to see some of you out and about supporting our incredible local businesses, many of whom have spent sooooo much money, time, effort and intangibles on keeping their doors open, employees working and more - that not only generate funds, but provide a mental health service that just can not be quantified.

It is obvious the Mandates are random and in most cases not supported by ANY science (I do believe a Judge in Southern Ca is still waiting for verified scientific proof outdoor dining is a significant cause of transmission)
10:00??? takes one day to go on to Lock Down yet 3 weeks to get off? - So if we go to 15% 1 day, and are at 25%
a couple days later you still have to wait 3 weeks? No Camping? Playgrounds (did I mention kids, Moms, dads mental health?)
20% Capacity - what science showed that was a proper number?

YES - be safe, disinfect, wash, masks, distance...

PLEASE STAY STRONG - the being a good puppy approach does not work as we have seen! Demand reasons for decisions, demand some Autonomy to strategically and surgically approach breakouts vs these random homogenized unsubstantiated lockdowns!, Please support your citizens & businesses -We are not stupid - we are responsible, caring, educated and realistic!! We support reasonable limitations during this most ugly time, but when you go beyond reason that is where things get even more ugly.

businessman, husband, home owner
Sierra County property owner - Supporter of our Sierra businesses from Placerville to Downieville -

other - and **LETS FIGHT FOR EACH OTHER!!**
