Hello Supervisors and Mr. Ashton,

The "term paper" Nancy Williams created in response to many constituents asking questions is flawed. She's either very misinformed or she is incompetent. Or?

Please listen to Dr. Fauci as he discusses Ct thresholds. He stated that anything over 37 is dead nucleotides. He says 35 is becoming standard. Stem Express uses 40. This info was provided in response to a PRA request in Sacramento. Why is it Sacramento provided the info and Nancy replies with gaslighting and copy/paste from a professional organization. Nancy says "ample evidence" regarding asymptomatic spreads. I have read ample evidence that says otherwise. Nancy should be required to show us the double blind peer review studies for her "ample evidence." The burden of proof should be on her to provide valid sources for her stayemts. Not a professional organization she ? paid to be a member of. Nancy thinks she knows more than Fauci apparently and the WHO.

Florida

Dr Fauci ( about 4 minutes in)

[https://m.youtube.com/watch?t=260&v=a\\_Vy6fgaBPE&feature=youtu.be](https://m.youtube.com/watch?t=260&v=a_Vy6fgaBPE&feature=youtu.be)

**"...If you get a cycle threshold of 35 or more...the chances of it being replication-competent are miniscule...you almost never can culture virus from a 37 threshold cycle...even 36...it's just dead nucleoids, period." Fauci**

**This is getting ridiculous!**

**I wonder if stem express is still using 40.**

**Also, I calculated EDC death rate. It's .00690947 so 99.9 % of confirmed positives in EDC have survived.**

**Fully open this county, now. Rescind the emergency declaration now.**
