For public comment 5/4/21BOS Meeting Item#19

Vote no on item 19. The gross overreach and blatant nefarious disregard for the federal and state Constitutions by public servants employed by counties as public servants has shown constituents the dangers of expanding public health departments.

The public should have a vote in any expansion being contemplated of the county health department. We certainly don't want another Nancy who makes statements about not knowing anything about the constitutionality of her decisions (suggestions) and has said we sometimes have to limit the rights of some for the good of the majority. That statement should be denounced by all supervisors.

Tracy Doyle
District 2
