Hello,

We have been so disappointed and in fact disgusted with our county's public health department response to the COVID problem. Instead of using solid facts, appropriate scientific evidence, and transparency to appropriately handle the situation; our county public health department has done just the opposite.

We don't need to add more beuracatic and unaccountable positions to our health department.

Please vote no to add this position, do the right thing.

Thanks, Pam and Roger Bradford
