Dear Supervisor Hidal,

I am writing to give my opinion for tomorrow's meeting regarding the Sheriff's use of body cameras. I am fully in support of the Sheriff's implementation of body cameras. Body cameras are essential to provide video evidence in court, and to give the people a sense of safety in knowing that the officers' actions will be documented during an encounter. I am also in support of officers being accountable for their actions if they should act inappropriately or make a mistake that results in bodily harm, just as myself, a physician, am responsible for my actions when a patient is under my care. In addition, we can no longer deny the fact that black and other non-white minorities are being treated differently by peace officers and Sheriffs in our country. Let's make sure that does not happen here in El Dorado County. Please consider my opinion during your vote tomorrow.

Thank you for listening.

Hello Ms. Novasel and Ms. Dawson,

Justice will be better served if the El Dorado County sheriffs wear body cameras. We have learned so much useful information from police body cameras in the United States over recent years. Additionally, sheriffs will likely behave better if their actions are recorded. Please support the implementation of cameras even if the Sheriff's Office does not. Thank you.
