With so much land still available for much needed housing, I am asking you to carefully consider future health & safety impacts of the Parker Lower Serrano project before moving forward.

I'm concerned about the increase in traffic that could result in school children, pedestrians and cyclists getting hit by cars.

I'm concerned about the sewer system failing, and the expense and inconvenience of repairs.

I'm concerned the County will not be able to provide enough clean, safe water.

I'm also extremely concerned there'd be no way to safely evacuate in the event of an emergency such as wildfire.

Thank you for taking the time to carefully consider these serious health and safety matters.

I hope some thought is given to finding a better location for this project.

Sincerely,

Karen Coomes
