

Dear Board of Supervisors, Mr. Don Ashton CAO,

Based upon current and expected continuing funding grants, the Community and Economic Development Advisory Committee recommends the Board of Supervisors investigate El Dorado County's ability to attain grants. If the county determines there is room to improve grant attainment success, the Community and Economic Development Advisory Committee recommends El Dorado County hire a professional experienced grant writer. The position would be well served if it was directly connected to Planning under the direction of Economic Development.

Respectfully submitted,

Glenn Krakow
Chair, CEDAC
