Subject: Removal of moratorium on hemp cultivation in El Dorado County

Cybele Holdings, Inc. supports lifting the moratorium on hemp cultivation in El Dorado County. Removal of the moratorium creates economic opportunity for residents and businesses by nurturing this new and growing industry.

Hemp is a State and Federally recognized legal agricultural commodity that is well suited to our local agricultural zones. Agriculture is a main contributor to El Dorado County's economic viability. Providing a diversity of crops and encouraging the pursuit of emerging markets is necessary for the long-term health of our agriculturally dependent county.

Sincerely,

Lee Tannenbaum
Chief Executive Officer
