I have to confess to not having seen this before tonight. I am looking at the date of the seventh and trying to figure out why I might not have seen it and I think I have a pretty good idea. I have been really really really sick for about four weeks. I it's a long story I don't care to go into except to say it is not Covid. However my only excuse is not being on physically or mentally at that time. So I apologize.

On the other hand, I have read the four questions and see no startling issues with them. The one thing that is missing for me is something that I used to start every meeting that I plan in facility as well as any lesson that I ever teach is a goal. What is the goal of this survey and why is it important? Or I could make assumptions about the answers to both of those questions but it should be stated so that we all know where we are going on this survey journey.

I am assuming that we are meeting in person next week?

Hope you are all well and looking forward to PRC forward motion!
