Rob Peters, Deputy Director of Planning, noted that his Departmental Report is representative of Environmental Management's determination of the issuance of the well permit and Environmental Management will not be evaluating or issuing any permits related to septic until adequate proof of water is determined from the well permit. The well permit has been issued, so it can move forward but, the well permit has not been finalized.

Commissioner Bly-Chester mentioned that it is her understanding that there was a community meeting with a Native American group and noted that the Native American group has interest in the project site but Commissioner Bly-Chester stated she was not aware of the outcome of that meeting.

Commissioner Bly-Chester questioned staff on the decision and response made regarding recent comments and letters received regarding the discretionary ability of the County as it pertains to proposed development of a commercial site in the Somerset area. Rob Peters, Deputy Director of Planning, noted he provided an update on permit status for the project and stated it was his understanding that the determination on the well permit and other associated permits are being handled as ministerial projects.
