DISCUSSION / BACKGROUND

On September 19, 2011, the Board approved and authorized the Chief Technology Officer to execute an Agreement for the purchase of Google Mail and Calendaring (Google Apps, G-mail) and associated services to replace Lotus Notes as the County's e-mail system. On November 21, 2011, Amendment I was executed to add an encryption tool and additional training webinars.

Google recently changed the name of its Google Apps products to "G Suite." Amendment II is necessary to reflect this product name change. Additionally, this name change will require County System Administrators to electronically agree to the "G Suite" Terms of Service which have been reviewed and approved by County Counsel.
