DISCUSSION / BACKGROUND

The Department of Transportation (Transportation) currently has an Agreement with the California Highway Patrol for traffic control related services. The Scope of Work specifically states "traffic control related services for various County construction projects within the vicinity of El Dorado County". There are occasions where Transportation needs traffic control related services that are not in conjunction with a construction project. Therefore, Transportation is requesting an amendment to update the Scope of Work to remove the reference to "construction projects". There are no other changes to the Agreement.

ALTERNATIVES

The Board could choose to not approve this Amendment but then Transportation would not be able to utilize CHP for traffic control services for anything other than construction related projects.
