Background

Most County facilities have access control and intrusion alarm equipment installed. There are monthly fees for maintenance of this equipment and 24/7 monitoring of the intrusion alarms at our facilities. For the past few years several departments have had their own individual agreements for these services. This agreement consolidates all services provided by Sonitrol to the County for these services into one agreement which will be easier to administer. Under this agreement, when new monitoring equipment is added to facilities or equipment is removed, the Contract Administrator can make the necessary changes to the associated monthly service fees by sending written notice to Sonitrol. The agreement will be administered by the Chief Administrative Office, Facilities Division; however, departments will be invoiced directly for their services.

Reason for Recommendation

Your Board is being asked to make findings that it is more economical and feasible to obtain an outside contractor to provide routine monitoring, maintenance and repair services and on-call maintenance and emergency repair services for the access control systems at various County-operated facilities, rather than to create new County job classifications and procure and maintain specialized equipment, proprietary software license, and facilities necessary to perform these services.

Action(s) to be taken following Board approval

Following Board approval, the Board Clerk's Office will forward the executed agreement to Procurement & Contracts for distribution, administration, and encumbrance.
