

Legislation Details (With Text)

File #: 21-0339 **Version:** 1

Type: Agenda Item **Status:** Approved

File created: 2/24/2021 **In control:** Board of Supervisors

On agenda: 3/23/2021 **Final action:** 3/23/2021

Title: Information Technologies Department recommending the Board:
 1) Authorize the County to continue utilizing competitively-bid U.S. Communities Agreement 4400006644 with Insight Public Sector, Inc. for the purchase of Amazon Cloud Storage solutions; and
 2) Authorize the Purchasing Agent to execute a Change Order to Agreement 2191 with Insight Public Sector, Inc. for the purchase of Amazon Cloud Storage solutions, extending the term two years to April 30, 2023, and increasing the not-to-exceed amount from \$135,000 to \$370,000, with no change to contract rates.

FUNDING: General Fund with partial recovery from the A-87 Cost Plan.

Information Technologies Department recommending the Board:
 1) Authorize the County to continue utilizing competitively-bid U.S. Communities Agreement 4400006644 with Insight Public Sector, Inc. for the purchase of Amazon Cloud Storage solutions; and
 2) Authorize the Purchasing Agent to execute a Change Order to Agreement 2191 with Insight Public Sector, Inc. for the purchase of Amazon Cloud Storage solutions, extending the term two years to April 30, 2023, and increasing the not-to-exceed amount from \$135,000 to \$370,000, with no change to contract rates.

FUNDING: General Fund with partial recovery from the A-87 Cost Plan.

DISCUSSION / BACKGROUND

On September 20, 2016, the Board approved the use of U.S. Communities Agreement 400006644 with Insight Public Sector, Inc. for the purchase of Amazon cloud storage solutions, for an initial period ending 4/30/19. On April 30, 2019, the Board approved the extension of this agreement for an additional two-year period, through April 30, 2021. The U.S. Communities Agreement has been extended for an additional two-year period, through April 30, 2023. Consequently, the County needs to amend Agreement 2191 with Insight Public Sector, Inc. for an additional two-year period to maintain cloud-based storage needs. Pricing details are specified in the contract and are based on usage, which may vary based on the County's needs.

U.S. Communities is a recognized government purchasing alliance that assists participating public agencies to reduce the cost of purchased goods and services through strategic sourcing that combines the volumes and the purchasing power of public agencies nationwide. This is

accomplished through an award of competitively solicited contracts for high quality products and services, for use by participating agencies. Board Policy C-17, section 5.9, Exemptions from Competitive Process allows for exemption from competitive bidding requirements if the contract was awarded utilizing a competitive bidding process substantially the same as that utilized by the County.

Cloud storage for data backup gives the County two main advantages over on-site storage. First of all, it is instantly-and for all practical purposes, infinitely-expandable. The County can consume as much storage space as needed, with no prior requests or other arrangements necessary. Also, if the County reduces its storage footprint, costs will go down instantly. The County does not pay for storage space it is not using.

Secondly, cloud storage raises Disaster Recovery posture significantly. Cloud backups are equivalent or better than off-site tape backups in every aspect. The County's data is safe in the cloud if our data center is ever impacted by a disaster. With cloud backup, the County will be able to restore its data much faster than restoring from off-site tapes. The time required for retrieval, shipping, and restoring many terabytes of data from a tape drive can run many days or even weeks. With cloud backup, our data can begin restoring almost immediately; only an Internet connection is required.

The County's continued increase in usage of cloud storage can be attributed to a few factors, including new County systems being brought into the environment, in addition to maintaining existing systems. The migration from the legacy backup solution to the Rubrik data protection and backup services (Legistar 20-0092, 1/28/20) has resulted in more efficient and comprehensive data backup/restore processes that protect County data in the cloud. Ongoing costs are expected to gradually increase as the County's data backup needs naturally increase. The increase in the contract not-to-exceed (NTE) amount to \$370,000 is anticipated to cover the County's Amazon Cloud Storage needs through April 30, 2023.

ALTERNATIVES

There are no feasible short-term alternatives to continuing to utilize Amazon Cloud Storage services. If this agreement extension is not approved, the County may need to return to an on-site disk and off-site tape storage option, incurring costs for hardware, software, support services, tapes, and shipping services. This option also exposes the County to the risk of data loss in the event of a disaster.

PRIOR BOARD ACTION

20-0825 - 07/14/2020 - Increased the Contract NTE to \$135,000

19-0624 - 04/30/2019 - Increased the Contract NTE to \$60,000 and approved the amendment extending the term to 04/30/2021.

16-0874 - 09/20/2016 - Authorized the County to utilize U.S. Communities Agreement 4400006644 for Amazon Cloud Storage.
