DISCUSSION / BACKGROUND:

On May 20, 2022, the California Department of Public Health (CDPH) approved the County of El Dorado Health and Human Services Agency (HHS) budget for the 2022-2027 El Dorado County Local Oral Health Program Grant 22-10162 (Grant). This program covers activities that support the state oral health plan, including but not limited to building capacity at the local level for the facilitation

and implementation of oral health education and prevention, linkage to treatment, surveillance, and case management services in the community. As part of the grant application process, CDPH approved HHSA's intent to sub-award funds to the El Dorado County Community Health Center (EDCCHC), the community partner currently operating a mobile dental van.

The EDCCHC Mobile Van Clinic (Clinic) specifically serves school-aged youth and offers oral health education, screenings, exams, x-rays, cleanings, fluoride treatments, fillings, and emergency dental care regardless of ability to pay. Dental services are a great need in our community. The EDCCHC is the only organization within the County that currently operates a mobile oral health prevention program. The sub-award will support El Dorado County's Local Oral Health Program goals and objectives while providing funding for dental van maintenance, equipment, repairs and outreach materials. EDCCHC is also recommended to receive these funds because they assist with the development of a County needs assessment and oral health improvement plan, supporting this community as a strong partner in the communication framework for oral health partnerships within the County. EDCCHC has provided essential prevention activities and will continue these efforts throughout the term of the grant (2022-2027). Mobile and on-site portable capabilities are critical to overcoming geographic barriers, a common factor that impacts under served populations in El Dorado County.

In accordance with Board of Supervisors Procurement Policy C-17, Section 7.11, the contractor selection process for service contracts in excess of \$100,000 must include a review of the scope of services and contractor's professional qualifications by a group of individuals (including at least one representative from outside the department requesting the services) qualified to judge the contractor's ability to perform the services. HHSA has documentation on file that such a review was performed.

ALTERNATIVES:

Should the Board decline to authorize this Agreement, the Local Oral Health Program would need to identify an alternate plan to provide oral health services in the County and submit a revised plan to CDPH.
