Background: The closure for the 15.8-acre Class III Old Landfill at the Union Mine Disposal Site specified by the California Regional Water Quality Control Board, Central Valley Region (CRWQCB) in new Waste Discharge Requirements Order No. R5-2006-0020 must be completed by August 15, 2007. As part of the Final Closure Plan, which was submitted to the CRWQCB on March 30, 2006, it was identified that 13.6 acres of the 15.8-acre Class III Old Landfill Area will receive final cover in the year 2007. The remaining 2.2 acres are schedule to be closed in the year 2040, the projected closure date of the Class II active disposal area. The final closure for the Class III Old Landfill requires earthwork to construct the Final Cover.

Reason for Recommendation: On March 13 your Board approved the bid documents for the construction of the Final Cover, 13.6 Acre Class III Old Landfill Area, Union Mine Disposal Site, El Dorado County, California, project.

The Department received four bid proposals for the Project as follows:
