Reason for Recommendation

At the request of Community Development Agency, Transportation Division (Transportation), the Procurement and Contracts division issued an Invitation to Bid for On-Call Application of Type II Latex Modified Slurry Seal. Transportation requires the service to perform Type II slurry surface treatment. The Division doesn't own the equipment required to perform this type of work. Nineteen invitations to bid were mailed; four (4) qualified responsible responses were received. No local vendors provide this service.

The invitation to bid requested an annual cost per square foot price for the application of Type II Modified Slurry Seal on various roads of El Dorado County for a three year period. The bid listed an estimated annual square footage "range" to be applied for each area of the County on an annual basis. The bid was evaluated using the low estimated annual square footage total to be applied as noted on Attachment "A". As such, the total listed bids were evaluated on the low end of the square footage to be treated annually.

Clerk of the Board Follow Up Actions

Following Board approval, Transportation will issue a Contract to be signed by the Purchasing Agent in the amount of \$ 1,800,000.00 for a three year period to Sierra Nevada Construction, Inc. of Sparks, NV, subject to review and approval of the final Contract documents by County Counsel and Risk Management.
