**Background:**

On December 17, 2008 the Department of Transportation (Department) was notified by the State of California (State), via the California Tahoe Conservancy (CTC) that the State was freezing existing bonds effectively stopping or significantly slowing work on a number of State funded Environmental Improvement Program (EIP) Projects from December 17, 2008 to present. On July 9, 2009, the CTC notified the Department that the State Treasurer's Office freed up limited funds to cover existing unpaid bills with the remaining amount used to restart existing bond-funded projects. At that time, the CTC requested a restart funding strategy from the Department to account for the fact that the released funds are less than the full cost of the existing grants. The Department submitted the funding strategy to the CTC on August 19, 2009.

Agreement CTA-04025 was originally authorized by the CTC Board on May 20, 2005 for \$252,000. Amendment 1 to Agreement CTA-04025 was authorized by the CTC Board on May 19, 2006 and increased the total grant amount by \$103,000 to a total of \$355,000. The expiration of this Agreement was amended to June 30, 2010.

**Reason for Recommendation:**

Amendment 2 of Agreement CTA-04025 will allow the Department to continue work on the Lake Tahoe Boulevard Projects and will reinstate \$59,078.62 (as of February 26, 2010) in grant funds that

would have expired June 30, 2010. The Amendment will extend the life of Agreement CTA-04025.1 to June 30, 2011.

Action to be taken following Board approval:

- 1) Board Clerk will obtain the Chair's signature on the five (5) originals of the subject grant Amendment.
- 2) Board Clerk will forward the originals to the Department for further processing to the CTC.
- 3) Following final processing, the CTC will transmit one (1) fully-executed original of the Amendment to Board Clerk.
- 4) Upon receiving the original, Board Clerk will forward a copy of the Amendment to the Department for its files.
