## Legislation Text

---

**File #:** 07-1069, **Version:** 1

---

Human Services Department, Community Services Division, recommending Chairman be authorized to sign an Application for a Wastewater Discharge Permit for submission to El Dorado Irrigation District, with the permit fee in the amount of \$410, for permitting of the grease trap at the new El Dorado Hills Senior Center.

**RECOMMENDED ACTION:** Approve.

**FUNDING:** State One-Time-Only Grant Funds and General Funds from the Community Enhancement Allocation dedicated for Renovation of the El Dorado Hills Senior Center facility.

**BUDGET SUMMARY:**

Total Estimated Cost	\$410.00
Funding:	
Budgeted	\$410.00
New Funding	
Savings	
Other	
Total Funding Available	\$410.00
Change to NCC	\$0.00

Fiscal Impact/Change to Net County Cost: No change.

**Background:**

El Dorado County entered into a short-term lease for the El Dorado Hills Fire District facility on May 1, 2005, authorized negotiations for a long-term lease or purchase on February 28, 2006 and subsequently approved the purchase of this facility on May 15, 2007. Human Services had initiated the remodeling and renovation of the facility, using a combination of one-time grant funds and an allocation from the Countys Community Enhancement funds, to accommodate provision of senior services in the El Dorado Hills area. Senior Nutrition commenced operations at the new El Dorado Hills Senior Center on June 30, 2006, and renovations are in process for that portion of the facility that will house Senior Day Care. Senior Nutrition participation at the new site has been even greater than expected, and it is anticipated that Senior Day Care services will be equally welcomed, providing options for residents of the westernmost portions of the County.

**Reason for Recommendation:**

El Dorado Irrigation District requires a wastewater discharge permit for the grease trap that any food establishment connected to the EID sanitary sewer system must have and maintain. The proper grease trap was installed during early stages of the renovation project and the Senior Nutrition Program oversees its use and arranges for regular maintenance. Submission of the attached application for this permit is necessary for completion of renovations to the facility. A copy of the permit application with accompanying checklist is attached.

Action to be taken following Board approval:

Board Clerk to provide Human Services, Community Services Division with two copies of the El Dorado Irrigation District Application for Wastewater Discharge Permit signed by the Chairman. Department will submit the application with the required \$410 fee.
