DISCUSSION/BACKGROUND

The two-phase Diamond Springs Parkway Project (Project) was approved as part of the Master Circulation and Financing Plan in December of 1998 and will provide improved traffic circulation and safety through and around the historic town of Diamond Springs. Phase 1A, currently under construction, was the first of two phases necessary to complete the entire Project.

Phase 1B will include: constructing a new connector road from Missouri Flat Road to State Route (SR) 49, signalization of three new intersections, necessary changes to turn lane capacity, sidewalk improvements for pedestrian mobility, and construction of a new parking lot adjacent to the El Dorado Trail. The right of way phase for Phase 1B of the Project will impact 25 parcels held by 13 property owners.

Construction of Phase 1A began in June of 2019. Construction of Phase 1B is anticipated to begin in 2022.

The Project is included in the Department of Transportation's (Transportation) 2020 Capital Improvement Program (CIP), and will be included in the forthcoming 2021 CIP.
