File #: 09-1243, **Version:** 3

Surveyor's Office advising the Board of perpetual Contract No. C34-013 with Environmental Systems Research Institute, Inc. (ESRI) in the amount of \$40,076.66 for Fiscal Year 2010-2011 for Geographic Information System (GIS) software licenses and maintenance and recommending continuation of same; and requesting authorization to request additional purchase orders as may be necessary to acquire additional licenses in Fiscal Year 2010-2011, if funding is available within said Department's budget.

Total Estimated Cost \$40,076.66

Funding Budgeted \$40,076.66

Fiscal Impact/Change to Net County Cost:
No change to Net County Cost.

Background:

The Surveyor's Office has contracted with ESRI since 1993 for the continued maintenance support and purchase of GIS software licenses. These licenses provide intranet capabilities, integrated database systems, and support to clients in other County departments. Although the contract is managed by the Surveyor's Office, the software licenses are shared amongst users from the Department of Agriculture, Elections, Assessor, D.O.T., Development Services, Environmental Management, Treasurer, BOS, Human Services, LAFCO, Health Services and Surveyor. Each year the Surveyor's Office advises the Board of the current year's contract term and amount and asks the Board for approval to continue the perpetual maintenance and license agreement and purchase additional licenses when needed. In the future, this perpetual agreement will be included with the annual request for approval of perpetual software/hardware agreements submitted by IT.

Reason for Recommendation:

The County is required to pay an annual software maintenance and licensing fees in order to continue the use of the software, receive upgrades and access technical support. ESRI is the sole provider of maintenance and support for these software products.

Action to be taken following Board approval:

Surveyor will request Procurement & Contracts to encumber approved funds for annual payment to ESRI. Purchasing Agent shall issue purchase order to ESRI pursuant to contract and include encumbrances for the Surveyor's Office as well as the other using departments. Purchasing Agent to issue purchase orders for additional license purchases when requested, if needed.
