DEPARTMENT RECOMMENDATION

Community Development Agency (CDA), Transportation Division (Transportation), recommending the Board adopt and authorize the Chair to sign Resolution **077-2017** accepting the 2016 revisions to the County Maintained Mileage System (County System). The proposed Resolution and accompanying updates to the County System will be submitted to the State of California (State), pursuant to the Streets and Highways Code, Section 941 and Section 2121.

DISCUSSION / BACKGROUND

In 2016, there were several revisions made, noting mileage increases and decreases, as follows:

- Road 2803, a new road constructed and accepted into the County System, adding 0.04 mile;
- Clarksville Crossing, Road 2804, a new road constructed and accepted into the County System, adding 0.57 mile;
- Old White Rock Road, Road 2805, a new road constructed and accepted into the County System, adding 0.31 mile;
- White Rock Road, Road 34, based on field or office review of actual road parameters, decreasing by .21 mile; and
- Tong Road, Road 2337, based on field or office review of actual road parameters, decreasing by .21 mile.

Overall, these revisions result in a 2016 increase of .50 mile, bringing the County System total to 1,086.66 miles (see Attachment 2B).

ALTERNATIVES

Without the Board's approval of Resolution **077-2017**, the updates would not be accepted by the State and would adversely affect future State funding. Additionally, the County would not meet the requirements of Streets and Highways Code Section 2121 that mandates submission of changes to the County System in May of each year.
