Total Funding Available.....	\$152,500
Change To Net County Cost.....	\$0

Fiscal Impact/Change to Net County Cost

Acquisition costs are \$150,000 with title and escrow fees estimated at \$2,500 for a total cost of \$152,500. Funding for the acquisition process will be provided by a California Tahoe Conservancy (CTC) Acquisition Grant Agreement (CTA #11014) and TRPA Air Quality Mitigation Funds.

Background

The Transportation Division is working to advance the Sawmill 2B Bike Path and Erosion Control Project (Project), which will construct a new bike path and multi-use path along the south side of Sawmill Road that will connect to the County's Sawmill 1 Bike Path Project (CIP No. 95148) completed in 2008 and to the County's Sawmill 2A Bike Path and Erosion Control Project (CIP No. 95165) completed in summer 2012. The Project provides erosion control and water quality improvements, which reduce the discharge of sediment and pollutants into Angora Creek and Upper Truckee River, as well as a multi-use path for recreational purposes along Sawmill Road.

The Project is subject to California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA). The CEQA Mitigated Negative Declaration was approved by the Board on December 8, 2009 and the NEPA Categorical Exclusion was approved by Caltrans on November 30, 2010.

On February 26, 2013 the Board authorized the Transportation Division to proceed with the acquisition process for the land rights necessary for the construction and completion of the Project.

Reason for Recommendation

Negotiations have concluded with the property owners, Cass B. Amacker Sr. and Virginia H. Amacker, and a settlement has been reached that is representative of the appraised value of the necessary land rights.

Action(s) to be taken following Board approval

1. The Clerk of the Board will obtain the Chair's signature on the Easement Acquisition Agreements for Public Purposes and the Certificates
2. The Clerk of the Board will return all executed documents to the Transportation Division for final processing.
