- 4) Authorize the Purchasing Agent, or designee, to execute further documents relating to Agreement for Services 4994, including amendments, which do not increase the maximum dollar amount or term of the Agreement, and contingent upon approval by County Counsel and Risk Management.

**FUNDING:** State Funding: 100% Mental Health Services Act.

**DISCUSSION / BACKGROUND:**

In 2004, California voters passed Proposition 63, the Mental Health Services Act (MHSA). MHSA imposes a one (1) percent tax on personal income in excess of \$1,000,000. The funds from the tax are distributed to California counties and are intended to transform the Mental Health System into one that is consumer and family driven, is recovery-oriented, accessible and culturally competent, and offers services appropriate for the population that is served.

Under MHSA, each county is required to develop a Three-Year Program and Expenditure Plan (Plan), followed by two subsequent years of Annual Updates to the original Plan. The purpose of the Annual Update is to review existing projects and to make deletions, modifications, or additions to the original Plan. Therefore, planning, implementing, and updating each Plan and Annual Update is an ongoing, annual process.

MHSA established five (5) components that address specific goals for priority populations and key community mental health needs. Prevention and Early Intervention (PEI), one component of MHSA, focuses on education, supports, early interventions and a reduction in disparities for underserved and unserved groups seeking access to mental health services.

This Agreement with Big Brothers Big Sisters of El Dorado County for Mentoring for Youth Project services will implement prevention and early intervention strategies for children age 3-18 who may have risk factors for mental illness in the County of El Dorado. The goal of the Mentoring for Youth Project is to determine if the child or family has organically or environmentally induced mental illness concerns and develop a case plan for the child, conduct parent workshops, develop coping

mechanisms with the child, help reduce stigma through education and training, reduce the effects of parental mental health issues affecting the child, and help the children utilize the skills learned to increase social and emotional development, increase academic performance, and increase socialization skills in school and public.

This Agreement is in accordance with the FY 2020-23 MHSA Plan adopted by the Board on June 9, 2020 (File ID: 20-0446). In addition, the Health and Human Services Agency (HHS) is recommending the Board approve the Director of HHS to execute three (3) one year extensions based on successful performance, thereby ensuring no lapse in services from the time the next MHSA Plan is submitted to Board for approval, and the availability of a new agreement. These one-year extensions of term are contingent on the Board approval of the related MHSA Plan or Annual Update. Should the need arise to increase compensation to accommodate the extended term, HHS will return to the Board with an amendment to the Agreement.

In accordance with Board of Supervisors Procurement Policy C-17, Section 7.11, the contractor selection process for service contracts in excess of \$100,000 must include a review of the scope of services and contractor's professional qualifications by a group of individuals (including at least one representative from outside the department requesting the services) qualified to judge the contractor's ability to perform the services. The Health and Human Services Agency (HHS) has documentation on file that such a review was performed for Agreement #4994 with Big Brothers Big Sisters of El Dorado County.

**ALTERNATIVES:** Should the Board decline to approve this recommendation, HHS would continue to provide services through existing contracts; however, HHS will be out of compliance with the FY 2020-23 MHSA Plan, and California Proposition 63.
