DEPARTMENT RECOMMENDATION

Community Development Services (CDS), Planning and Building Department (Planning), recommending the Board approve the Final Map (TM06-1428-F-1) for the Carson Creek Unit 2A, Phase 1 Subdivision, as well as the Agreement to Make Subdivision Improvements.

DISCUSSION / BACKGROUND

Carson Creek Unit 2A, Phase 1, is the first Final Map proposed to be recorded in accordance with the approved Tentative Subdivision Map. As part of the adopted Carson Creek Specific Plan, the Carson Creek Unit 2 Tentative Subdivision Map was originally approved by the Planning Commission in December 2012, creating a total of 634 age-restricted residential lots in 27 large lots for phasing purposes (Exhibit C). A minor revision to the approved Tentative Subdivision Map was approved by the Planning Commission in July 2015.

The Carson Creek Unit 2A, Phase 1 Final Map has been reviewed and verified for conformance with the approved Tentative Subdivision Map (Exhibit D). The 186-lot map consists of 170 residential lots with a minimum lot size of 4,000 square feet, 10 lettered landscape lots, 6 large lots for open space tracts, and a road lot for the westerly extension of Investment Boulevard. Exhibit E details the verification of the Final Map for conformance with the approved Tentative Subdivision Map Conditions of Approval. County Departments and affected outside agencies, including the CDS Transportation Department, Surveyor's Office, and the El Dorado Hills Fire Department, have reviewed and recommended approval of the Map. A meter award letter from El Dorado Irrigation District has been secured for public water, recycled water, and sewer services for the Subdivision (Exhibit F). The Agreement to Make Subdivision Improvements (Agreement), including the associated bonds, has been approved by the CDS Transportation Department, subject to authorization by the Board Chair.

Environmental Review: The review of the Final Map is a ministerial process and is Statutorily Exempt from environmental review under Section 15268(b)(3) of the California Environmental Quality Act Guidelines.
