Total Funding Available.....	\$93,174.36
Change To Net County Cost.....	0.00

Fiscal Impact/Change to Net County Cost

This agreement is for three (3) years of hardware maintenance. The current year's amount is included in IT's budget allocation and IT will continue to budget the appropriate amounts for the following two years.

Background

The main infrastructure of the County's Network System is comprised of multiple Cisco switches and routers housed in the Information Technology Data Center and throughout the County's remote facilities. IT contracts for maintenance of this equipment each year to ensure uninterrupted network connectivity county-wide.

Reason for Recommendation

This maintenance agreement extends the replacement warranty on specified critical machines and allows for immediate replacement (advanced depot exchange) should a unit fail, ensuring minimal down time of the County's Network Infrastructure.

Action(s) to be taken following Board approval

Purchasing Agent to sign purchase order #PO201407790 with Bear Data. Purchasing to forward fully executed agreement to vendor.
