DEPARTMENT RECOMMENDATION

Negotiations concluded with property owners, Christopher Seth Marlin and Thomas Aaron Petanovich, as Joint Tenants, securing the County's interest in the subject easement acquisition, and a settlement has been reached that is representative of the appraised value rounded to a compensatory value of the necessary land rights for project construction.

The Community Development Agency, Transportation Division (Transportation) recommends the Board Chair sign the Easement Acquisition Agreement for Public Purposes for the Diamond Springs Parkway Phase1A - SR49 Realignment Project (Project). The Temporary Construction Easement is necessary for construction of the Project.

DISCUSSION / BACKGROUND

The Diamond Springs Parkway - Phase1A - SR49 Realignment Project (Project), originally referred to as the "Missouri Flat Pleasant Valley Connector", was initiated to provide improved traffic circulation and safety through and around the historic town of Diamond Springs. Phase 1A is the first of two phases necessary to complete the entire project and includes realigning, widening and improving SR-49 from the new parkway intersection south to Pleasant Valley Road and signalization of multiple intersections. While full benefit will not be realized until completion of all phases of the project, Phase1A will add benefit to the County's traffic circulation and independent utility.

The Project is included in the Community Development Agency, Transportation Division's 2015 Capital Improvement Program as adopted by the Board of Supervisors on June 16, 2015 (Item No. 40) and is subject to the California Environmental Quality Act (CEQA). The Environmental Impact Report (EIR) was approved by the Board of Supervisors on May 24, 2011 (Item No. 39). Construction is scheduled to begin in 2016.
