Fiscal Impact/Change to Net County Cost: The total funding for this agreement is \$200,000 for the two-year contract. There is no Change to Net County Cost.

Background: El Dorado County Mental Health Department (MHD) operates a Psychiatric Health Facility (PHF) in Placerville that provides acute inpatient psychiatric services to adults. In addition to serving local needs, the services provided by the PHF are also available to California counties which have established contracts with El Dorado County that permit them to make placements to the PHF. These placements are made subject to bed availability and clinical appropriateness.

The PHF is also a facility that effects involuntary psychiatric confinement of individuals, and as such is required to comply with strict regulations governing various aspects of its operations. These regulations include minimum staffing requirements for nurses, mental health workers, and other health care professionals depending on the number of placements at the PHF. As a result, at times various factors converge to create situations where the PHF cannot continue operating without additional professional staff on certain shifts. The most typical example is a sudden, unpredictable increase in PHF utilization combined with mission critical staff out on sick leave. The most effective means of responding to such contingencies is to obtain the services of commercial temporary staffing firms that can deploy required personnel on an "as requested" basis. Additionally, as a fail safe, multiple firms are identified that can provide the services on an "as requested" basis. Thus, if one firm is unable to deploy the required health professional, there are alternatives.

In January, 2008 the County Purchasing Agent established a list of vendors qualified to provide temporary personnel for the PHF. The vendors on the list were identified through a Request for Qualifications (RFQ) process that included ranking the firms based on qualifications. As a result of the RFQ, this vendor is being awarded a contract to provide temporary personnel at the PHF as may be requested by the Department. MGA Healthcare, Inc. will provide nurses, mental health workers, and other medical professionals to assure that necessary staffing levels are maintained at the PHF.

Reason for Recommendation: This agreement will allow the Department to have back-up staffing available so as to maintain operation of the County Psychiatric Health Facility in compliance at all times with applicable law pertinent to staffing levels.

This agreement will become effective upon execution and will expire two years thereafter.

Action to be taken following Board approval:

- 1) Chairman to sign original Agreements.
- 2) Board Clerk's Office to return one (1) original Agreement to Department
- 3) Department to distribute as appropriate.
