- 4) Planned Development (PD13-0001) establishing an official Development Plan for Serrano Village J5/J6 Tentative Subdivision Map with modification to Single-Unit Residential (R1) minimum development standards including lot area, lot width, and yard setbacks.

The property, identified by Assessor's Parcel Numbers 123-570-03 and 123-570-04, consisting of approximately 36 acres, is located on the east side of Bass Lake Road, immediately east of the intersection with Sienna Ridge Drive, in the El Dorado Hills area, Supervisorial District 1. (County Planner: Mel Pabalinas)

Staff presented the Project to the Planning Commission on May 25, 2017. Discussions included the loss of commercial land in the Serrano Village J area, improvements along Bass Lake Road, and history of approved commercial and residential developments in the Village area consistent with the adopted El Dorado Hills Specific Plan. The applicant responded to the questions by citing lack of market demand for the 4.27-acre site, the need for additional housing in the area, and the commercial development approved on the 10-acre site to the south (Planned Development PD07-

0008/Serrano Village J5 Commercial Center, Assessor's Parcel Number 123-040-07, approved for 118,000 square feet on 11.68 acres) (Attachment 3C).

Public comments from the El Dorado Hills Area Planning Advisory Committee included concerns on drainage and stormwater quality impacts into the Bass Lake overflow to the east and modifications to road and development standards proposed for the project. In response to the drainage and stormwater quality concern, the applicant indicated that as part of the Project, design water quality basins would be installed at specific locations within the Project area adjacent to the overflow.

Following closure of deliberation and public comment, Commissioners Miller, Williams, and Vegna emphasized their concerns on the loss of commercial land and potential jobs and modifications to road and development standards. Commissioner Vegna made a motion to recommend denial of the project with a second from Commissioner Williams. The motion was passed by a vote of 3-2 (Hansen, Shinault), and staff has prepared Findings for Denial for the Board's consideration (Attachment 3B).
