DISCUSSION / BACKGROUND

Request to consider General Plan Amendment A16-0001/Rezone Z16-0004/Specific Plan Revision SP86-0002-R-3/Planned Development Revision PD94-0004-R-3/El Dorado Hills Apartments submitted by The Spanos Corporation to request the following:

- (1) General Plan Amendment adding a new policy under Objective 2.2.6 (Site Specific Policy Section) increasing the maximum residential density allowed in the General Plan from 24 dwelling units/acre to a maximum of 47 dwelling units/acre for the 4.565-acre site within the Town Center East Planned Development area identified as Assessor's Parcel Numbers 121-290-60, 121-290-61, and 121-290-62;
- (2) El Dorado Hills Specific Plan Amendment incorporating multifamily residential use, density, and related standards for the apartment project. The project site would be designated as "Urban Infill Residential" within the Village T area of the El Dorado Hills Specific Plan;
- (3) Rezone of project site from General Commercial-Planned Development (CG-PD) to Multifamily Residential-Planned Development (RM-PD) and revisions to the Multifamily Residential zone district development standards applicable to the proposed 214-unit apartment complex; and
- (4) Revisions to the approved Town Center East Development Plan incorporating multifamily residential use, density, and related design and development standards for the proposed 214-unit apartment complex within Planning Area 2 of the Town Center East Development Plan. The proposed apartment complex would be contained in two 4-story, 60-foot-tall buildings and a 5-level, 60-foot-tall parking garage and other on-site amenities.

The property, identified by Assessor's Parcel Numbers 121-290-60, 121-290-61, and 121-290-62, consisting of 4.56 acres, is located on the northwest corner of Town Center Blvd. and Vine Street, within the Town Center East Planned Commercial Center, in the El Dorado Hills area, Supervisorial District 1. (County Planner: Mel Pabalinas) (Environmental Impact Report prepared, State Clearinghouse No. 201704217)

These applications were considered by the Planning Commission on January 11, 2018 (Legistar File 17-0846) and were recommended for approval with a vote of 3-2 (Vegna, Williams). Staff provided a summary PowerPoint slide presentation of the proposed project, which included the analysis and conclusion of the accompanying Environmental Impact Report (EIR). The applicant presented a separate slide presentation of the project and discussed the comparisons with the previously approved (2014), higher density (250-unit) version of the project (refer to Legistar File 14-0769). Following staff and applicant presentations, discussion with the Planning Commission involved topics such as density, traffic, Measure E applicability, open space areas within the project area, and parking. Public comment received included public support of the project citing land use and design compatibility with the surrounding area, as well as comments for non-support citing potential environmental impacts associated with traffic and aesthetics.
