DEPARTMENT RECOMMENDATION

Information Technologies (IT) Department recommending the Board approve and authorize the Chair to sign Resolution **099-2018** to: a) delete one (1.0 FTE) Information Technology Technician Trainee/I/II/Sr. position, and b) authorize the Human Resources Department to initiate and process a reduction in force.

DISCUSSION / BACKGROUND

The County has been going through an application modernization process over the last five years. In January 2018, the County migrated the financial system off the mainframe to MUNIS, reducing the IT workload with regard to manually running jobs and processes on the mainframe.

Currently the IT Department has two (2) IT technicians running and monitoring jobs on the Mainframe. The day shift operator monitors the mainframe utilization and performs jobs that can be run during production. The night shift operator performs specific jobs that cannot be run during production hours due to system design and limitations. With the go-live of the MUNIS system, the workload for the operations staff has drastically decreased. The Department has analyzed the workload of the two operators and has determined the remaining workload for the operators does not require two positions.

Given the lack of work for Mainframe Operations, the IT Department is recommending the Board approve the deletion of 1.0 FTE Information Technology Technician Trainee/I/II/Sr. allocation.

This Reduction in Force will follow County approved policies and procedures as required by the respective Memorandum of Understanding between the County and the affected labor organization.
